

# YOU ARE INVITED

TO THE OPENING OF THE "MODEL HOME"

## The Redwood Home of the Future Sunday Aug 20th

9 A. M. TO 10 P. M.

ON HWY. 101, 1 MILE WEST OF SMITH RIVER, ON FIELDING RANCH (SEE SIGN)

Pictured above is a one-bedroom home, made entirely from redwood, complete except for furnishings, which will be viewed next Sunday, at the Fielding Ranch, across the road from Valley View cabins, one mile west of Smith River.

This new type home, designed to bring housing within reach of the small wage-earner as well as the higher brackets, may be "tailored" to fit the particular needs. Any basic unit is so designed that additional rooms may be built at any time without changing the style of the house materially.

There are many options on interior finish. It may be left with the beautiful redwood, or may be covered with sheet-rock, papered, calsomined, or plastered. To tell too much would take away from the anticipation of visiting it at Open House, Sunday, August 20.

The building of this home is result of many years experience on part of Roy Davis, one of the owners of the company, who has

had 32 years construction experience. H. A. Sanders is business manager, who says the coast area will be served as rapidly as possible.

As these houses are pre-cut, the buyer may erect them according to a layout furnished with the material. If the buyer wishes them erected, a crew will be furnished, and the house will be ready for occupancy within ten days from date of delivery on the grounds.

Designed so that there is no lost or wasted space, these houses are as compact, yet roomy, as any trailer you may study for comparison. The kitchen is designed along the pattern of a railway dining car. The bathroom is as ample as many found in the most expensive homes. Everything is so designed that the buyer may make the home fit his pocketbook exactly. You are invited to the open house, next Sunday. It is on Hwy 101, 1 mile west of Smith River, across the road from Valley View Court, on the fielding ranch.

*COFFEE WILL BE SERVED TO EVERYONE, SUNDAY!*
