

Universal Christmas Would Insure World Unity and Peace!

**---That Is, If We Observed It
365 Times a Year!**

The "Spirit Of Christmas," one of love, sacrifice and giving, follows the teaching of "The King of Hosts," Jesus Christ, who gave us a way of life. Were we to practice this way of life universally there would be no world incidents such as wars, disputes between nations or among people.

Can we hope, right here in our own community, to inaugurate this plan and practice it for the next 365 days, and observe its effect upon our state, nation, and eventually the world?

We would like to make this pledge with everyone else, to make this attempt—will you?
