

KCRE Wants People On Brookings Hour

An appeal is being made by Robert Gray, manager of radio station KCRE for people of the Brookings area to utilize the time available on the Brookings Hour each afternoon Monday through Friday.

"I want people of that area to feel that this is also their own radio station—not Crescent City alone. Actually, if Brookings is able to supply the material for that time, it may use two hours daily if it wishes.

Mrs. Dorothy Lockland was the woman of the week Tuesday at appropriate ceremonies at the Mecca Theatre. This idea may be carried out so that each day some person may be honored at or through some program, Mr. Gray explained Sunday.

"Brookings is growing—it is a place which has only started to grow—so it must be put on the air so the remainder of the world may know what it is doing. Have anyone there who will or can, come and put on the program of a certain day. Stagger the days so that no one person has a big load to carry in his doing this service."

Plywood Plant Will Cover Over 2 Acres

A building 235x400 is sizeable if you wish to take your pencil and paper and do a little figuring.

An acre contains 160 square rods. The total area of the plant will be 347.59 square rods, or 2.17 acres.

The floor will be of concrete, the Pilot was informed. That is also something in way of amount of cement which will be needed to cover the ground the required and needed depth, which says nothing of the amount of sand and gravel to be used in making of concrete.

No estimate was given of the amount of lumber and timbers needed in the construction of the plant building, but it will run in to several million feet before the place is closed in completely.

People with plenty of time, may have a little fun trying to estimate the weight and number of nails—anyway, the weight.

Don't Prune Away Your Berry Yield

GOLD BEACH — Apparently some folks get a great kick out of pruning raspberries. If you overwork the pruning shears on raspberries, some of your berry yield will be lying on the ground when you are finished, County Agent Clifford Jenkins said.

More raspberries are overpruned than underpruned. Each hill should have 12 canes left in it. If you cut the canes back more you will get larger berries, but a smaller total yield.

More returns from the raspberry patch may also be received with spring application of nitrogen and phosphate fertilizers. About 30 to 60 pounds of actual nitrogen and about 100 to 150 pounds of actual phosphate per acre. This applied as a side dressing to the raspberry rows should increase the yield much.

Fifty boys are sought by the Boy Scout committee of the Odd Fellows lodge here, to enroll and get in readiness for the camporee, to be held in June. An advertisement appears elsewhere in this issue.

Weather Report

For the week ending on Sunday:	Max.	Min.	Rain
March 12	56	38	.21
March 13	62	44	
March 14	58	38	
March 15	51	46	.62
March 17	64	35	
March 18	66	40	
Rainfall for week			.83

In The Mail-box:

Dear Editor: Information has reached Curry County Hospital board that individuals are considering assuming the cost of equipping a hospital room, and that several service organizations and womens clubs are planning on that as their year's humanitarian project.

This would be very much appreciated and in return for this needed assistance a suitable metal plaque would be placed at the entrance of the room, carrying the name of person or organization who made this contribution.

Now that construction of the building is well under way, plans for equipment are being carried on. Due to the present-day trend of high prices the amount allowed in the project for equipment is proving to be a problem. For instance cost of equipping the surgery and delivery rooms, with sterilizers, explosive-proof operating lights, operating tables, etc., will cost more than \$9000.

A donor considering this type gift could see the board chairman as he now had the price lists of room equipment. The items needed in a complete hospital are so numerous that there is a large range to choose from, depending on the amount to be donated. C. E. Seger, chairman, Curry County Hospital Board, Gold Beach, Oregon.

Editor, Pilot: Enclosed find a postal note for \$3 for my subscription to the Pilot. I do enjoy reading it very much, especially "Along Azeala Row." Wm. A. Carroll, Care Penn. Ry Co., 2-8 Broadway, New York, N. Y.
