

Tansy Control Meeting To Be Held

A special talk on the elimination of the weed Tansy will be given at the Grange hall on Friday, September 7. This weed has a limited start in some sections of Harbor, certain sections of Smith River valley and other parts of the county.

Cliff Jenkins, county agent, will be in attendance at this meeting.

Those not familiar with Tansy will learn that it is an expensive weed to eradicate, but if taken in time can be controlled.

Mr. Crissey, Brookings, whose hobby is plants, feels that Brookings-Harbor residents might profitably become acquainted with

its habits by attending this meeting.

Friendship Sunday

Friendship Sunday will be observed by the Community church on August 9. All members and friends have been called on, if possible, by the committees and new residents in the community are cordially invited to attend services on that day.

Take a friend and attend church on this Friendship Sunday.

Sunday school for all ages at 9:45 a.m.

Worship service at 11:00 a.m. and 8:00 p.m.

A nursery is maintained for babies and small children.

C of C Membership

A special effort is being made to increase active membership in the Chamber of Commerce in Brookings and Harbor. This group will have many and varied projects and problems relative to the incorporation of Brookings, the new airport on the Crissy tract south of Harbor, the development of the Chetco harbor and other projects of vital concern to the betterment of the community.

It is the duty of every citizen to support this body of civic-minded persons through which many advantages can be accomplished for this area.

Cooperation will gain these ends. Every resident of this area is

eligible and welcome.

A dinner will precede the September 20 meeting at the Grange hall.

FALL IS THE BEST TIME OF ALL ...Do Your Outside Painting Now!

Here's Why:

- 1 Autumn's warm, dry days and cool nights give you the ideal paint-drying conditions!
- 2 After 'baking-out' all summer, paintable areas have given up most of their moisture . . . they're READY for paint!
- 3 The chance of a sudden shower spoiling a not-yet-dry paint job is greatly reduced!
- 4 There is less danger of damage by flying insects; less danger, too, of scorching sun blistering the fresh paint film!

START WITH

DU PONT HOUSE PAINT

Made Right...to Stay White

Crisp Autumn days . . . paint-up days! . . . the right time for bright-up time at your house! TODAY, get famous Du Pont "40" Outside White—the whitest white you ever saw—or a popular fade-resistant Du Pont House Paint tint. Does your home proud, keeps it looking "freshly painted" for years!
