

For Whom The Bell Might Toll!

Wouldn't it be wonderful if, through "The Crusade for Freedom" radio, the parade music could be heard behind the iron curtain? What a different opinion it might make among those down-trodden Russian people who know so little about our ways, our life.

Call For Bids

Local News

Mr. and Mrs. Frank Shaffer of Eureka were over night guests at the E. L. Miller home on Friday night and again on Sunday.

Saturday they were joined by Dr. Bill Turner, also of Eureka. They journeyed to Gold Beach, where they joined nine other members of the Eureka Camera club. They spent Saturday night in Gold Beach and on Sunday morning made the boat trip up the Rogue. They enjoyed the day very much and many pictures were taken for the club. Deer were close enough that the boat went almost to the bang and many snaps were made of them at different places.

New Industries Adds New Wealth

Start of construction which has kept so many eyes on this community. While the plywood plant is an industry all this area points to with pride, it certainly is not all the assets this community has to boast of. Annually there are "Croft lily" bulbs and daffodil blossoms and bulbs shipped from here, aggregating about a million dollars to the community. Blossom shipping begins in December and lasts late in February, attesting to the climate everyone believes the mildest in the United States.

Fishing is another sport we enjoy on the coast—one which also make a living for quite a number of people. You will find we have a sports cannery in this area that will grace any city, regardless of size. Be sure you take in all the sights hereabouts.

TUNE-UP!! A Key To Gas Economy
