

Machine Agency Placed With 'Shop'

An agency for Adler & Phoenix sewing machines has been placed with Young's Gift Shop, Brookings by Davenport Sewing Machine & Appliance Shop of Medford, according to Mr. Davenport, who was here last week, locating someone to handle his lines.

This machine, said Mr. Davenport, is something new in the sewing machine field, inasmuch as it can, without attachments, sew on buttons, do ziff-zag sewing and a number of other operations. He sold a few machines during the time he was in town.

Ladies Store Due

Sam Rose, of Portland, has leased space in the Kerr building, formerly occupied by the drug store, and will open an exclusive ladies shop, he told the Pilot last week. While the building is being made ready for occupancy, Mr. Rose is selecting stock.

Date of official opening has not been made as yet.

Weather Report

For the week ending on Sunday:				
	Max.	Min.	Rain	
February 18	45	30	.73	
February 19	40	34	.53	
February 20	49	34	.30	
February 21	46	30	.07	
February 22	46	38	.71	
February 23	54	44	.33	
February 24	57	37		
Rainfall for week			2.67	

QUESTION: Is there any way I can put up a shelf on the tile wall of my bathroom?
—J. S. Brockton, Massachusetts

ANSWER: Start by attaching small blocks of wood to the tile wall with adhesives. This type of adhesive is generally available, most of them are black in color, and will hold practically all kinds of materials together very well. With blocks in position, use screws to attach fixtures in customary way.

QUESTION: Please advise how to remove rust stains from white asbestos shingles. The stains are caused by rain water dripping from gable-end louver or vents.
—J. H. C., Bronx, N. Y.

ANSWER: Use a solution of sal soda (sometimes called sodium carbonate) and granulated soap in warm water. Scrub shingles with this mixture, using a stiff brush. Rinse thoroughly with clear water—use a garden hose with full pressure. Start your scrubbing at the bottom, otherwise the drip from above will make stains on lower, dry shingles, which will be hard to remove.

QUESTION: I have difficulty patching broken pavement around my home. What is the correct procedure?
F. S. G., Trenton, N. J.

ANSWER: Remove all loose material from spot to be patched, then soak it thoroughly with water. Key edges of hole by undercutting them with a cold chisel. Then apply cement of a 1:2½ mix (1 part cement in which lime has been mixed, 2½ parts sharp sand) in clean water.

QUESTION: Is there any danger in putting the smoke pipe from a coal stove into the same chimney where there is an oil burner in the basement?
—A. Y., Enfield, Connecticut

ANSWER: Main danger from two fires connected to same flue is that draft of one, or the other, will be poor. If oil burner operates with forced draft, probability is that stove would smoke. Some chimneys have two flues however, and it's worth checking for this.

This column is prepared by the editors of THE FAMILY HANDYMAN MAGAZINE as a service to home owners. If you have any questions or problems relating to your own home, please address a letter, stating your problem to THE FAMILY HANDYMAN, 211 East 37th Street, New York, N. Y., Attention of News Syndicate Editor. If the question has widespread appeal in the opinion of the editors, it will be printed with the answer in this column at a later date. However, we cannot undertake to enter into detailed correspondence with everyone.

There's Gold In Your Farm Woodlot

No. 1 (First of a series of six articles on second-growth forests as a cash crop, prepared by private, state and federal forest agencies)

Can you afford to grow a crop of trees on your land? Can you make more money in trees than in grass pasture or other crops? The answer may be a resounding YES to both questions, if your land is best suited to forest growth.

Oregon and Washington are full of case histories of hopeful settlers who went against nature and tried to convert forest land into crop land. Reason for failure in most cases, so expert soil men tell us, is that forest lands generally lack some vital mineral and food elements which farm crops require. Trees will grow well on this land which is best suited for a forest crop.

How much can I make off my forest land? Take the typical case of the Snohomish County farmer in Washington who has made his 60 acres of woodland pay well. In 1940 he began managing his second-growth timber. Since that time he has taken off a total of approximately \$1,500 in cash from timber sales, plus 160 cords of fuel for home use, materials for a new barn, including a cedar shake roof, and enough fence posts for a mile of fence. This amounted to \$6.60 an acre from his woodland each year: \$2.77 in cash plus an estimated \$3.83 in fence posts, fuelwood and building materials. He estimated that it has cost him about 42 cents

per acre, per year for taxes, fire protection, interest on his investment and general costs. He still has his forest in excellent condition.

How can you manage a second-growth forest for permanent income? You can sell some products right along as the forest is growing. Thinnings may yield pulpwood, cedar poles, alder and maple bolts, Douglas fir poles and piling and fuelwood. The Snohomish farmer discovered that his woodlands had increased in value about 500 per cent from 1940 to 1949 because of the increased volume due to faster growth after thinning, proper care of his forest and increased value of his growing timber. A bonus for good husbandry.

Do you have to wait 50 to 100 years to get a harvest? No. You can sell some products right along while the young trees are growing into saw logs. The secret of getting the most out of your farm woodlot is to make numerous small harvests at the right time and in the right way. You will then keep healthy growing trees on your land which are making money for you each year of growth. Next week we'll look at a typical young forest with critical eye.

(For more particulars write your State Forester at Olympia, Washington or Salem, Oregon for your free copy of "YOUR TREES—A CROP," how to grow and harvest them in the Douglas fir region.)

'Garden' Is Theme For Fashion Show

Prelude to Spring! A garden path, "a cloud, a host of golden daffodils." And on parade, graceful design in motion. One needn't be a sleuth to hear the first whisperings about town of the Satellite Club's spring fashion show.

Saturday evening, March 22, at the high school gym is the date and place set for the Fifth Annual Fashion Show and entertainment, to be followed as usual by a dance at the V. F. W. hall.

Started in 1948, each show has offered to capacity crowds, the latest in styles for the entire family. Presented each year in an original and beautiful setting, and modeled in a well-trained and professional way, the fashion has, each year, been acclaimed a "first" in entertainment for the entire community.

Local merchants are enthusiastically entering into the plans.

Our newest clothing store, Robinson's Tot Shop, promises the newest in childrens clothing, to be modeled by the most glamorous "young set."

Swirling skirts, the princess silhouette and the slim sheath dress of newest import, are to be shown by Eu-Lee's Dress Shop.

Not to be forgotten either, is the man about town or the man with fishing togs in mind. Hanscans and Phillips Dad & Lad Shop are well prepared to show the men just what they will be needing this spring.

Lists of models taking part, more fashion news and a hint of entertainment to be offered will be published next week, and in other subsequent issues.

Son Born

David Earl is the name of the young man born last Saturday morning to Mr. and Mrs. Jack W. McCord, of Harbor, at the Brookings Clinic.

LOCAL NEWS

Jerry Burnham, regional Boy Scout director, was a business visitor in this area several days last week, on Scout business.

Hans G. Nelson, municipal judge, entered a hospital at Eugene, Monday, for an eye operation.

A two-car wreck, near Chetco Bridge, Saturday night, involved the cars of Herbert H. Goldberg of Smith River and one driven by Walter H. Harris of Harbor left the occupants of the Goldberg car shaken but not seriously hurt. Examination was made at Seaside hospital. Mr. Goldberg is the music director of the schools of Del Norte County.

Mr. and Mrs. W. L. Crissey arrived home after a month's stay in a southern clime, after leaving here Jan. 24. They went by car to San Diego, where they took a plane to Mexico City for two weeks.

Mrs. Leslie Miller and daughter, Lois Ann and Mr. and Mrs. Roy Gardner of Eureka spent the week-end at the Miller home on the Chetco.

Mrs. Rose Poole returned to her home from Klamath Falls last week after having spent a couple months with her daughter and family.
