Sunday school from 9:30 to 10:30 a. m. Children and young people up to age of 20 are welcome.

Services Sunday at 11 a. m.
 Wednesday, testimonial meetings at 8:00 p. m.
 Reading room in church, open Friday 3:00 to 5:00 p. m.
 Corner of Pine and Alter

Across from the Greenhouse
 "Substance" is the subject of the Lesson-Sermon in all Christian Science Churches Sunday, March 16. The Golden Text is "The Foundation of God Standeth sure, having this seal, The Lord knoweth them that are his" (see II Tim. 2:19).

The second reader will begin the sermon with the following from Psalms: "In the, O Lord, do I put my trust: let me never be put to confusion. Be thou my strong habitation, whereunto I may continually resort: thou hast given commandment to save me; for thou are my rock and my fortress" (71:1-3).

The first reader later will read the following from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Spirit is the only substance and consciousness recognized by divine Science", and follows it with the question, "Which ought to be substance to us—the erring, the changing, and dying, the mutable and mortal, or the unerring, immutable and immortal?" (page 278).

There's Gold In Your Farm Woodlot

No. 3 (Third of a series of six articles on second-growth forests as a cash crop, prepared by private, state and federal forest agencies)

How can I harvest my farm woodlot timber and make the most money? That's the most important consideration. The answer rests in proper management of your woodlot.

You have seen that more than one product can be taken from your woodlot. The products you get depend on 1) type of timber you have, 2) local markets, 3) selling prices, and 4) logging costs. Always cut the products that bring the most net return to you. Keep in touch with markets and buyers.

To manage your trees you work with nature. Each young forest starts with thousands of trees to an acre. As the trees grow the weaker ones die for lack of sun, food, water and air. This natural thinning process is called mortality and the loss in unmanaged woodlots will run to a cord per acre each year.

You can harvest those trees and improve on nature. By cutting the right trees you will release growing space for the smaller, better quality trees in your woodlot. You change loss to income and at the same time improve your forest.

Removing the right number of trees each year is important. In Douglas fir forests you should go over every acre at 5 to 10 year intervals and take out from 15 to 30 per cent of the stand of mer-

chantable timber products each time.

Why make frequent cuts? To get high-quality timber your woodlot needs enough trees on each acre to use all available growing space. Frequent thinnings keep the trees growing rapidly. Frequent cuttings also make it possible to avoid having too much space left between trees. Poor spacing permits wind-throw and trees may become sun-scalded or injured in other ways. Well spaced trees have a closed canopy, that is, the branches of one tree meet or nearly meet those of its neighbors. Forests of this type produce maximum tree growth per acre of high-quality trees. They also keep hardwood brush growth down to a minimum by keeping out the sunlight.

In 20 years an acre of managed forests will grow 6 cords of wood; in 40 years there will be 48 cords, in 50 years an acre will yield 72 cords and at age 80 an acre will produce 120 cords. Note rapid increase in older trees. That's a graphic reason why you should manage your forests. Next we will discuss what trees to cut to get best results from management.

(For more particulars write your State Forester at Olympia, Washington or Salem, Oregon for your free copy of "YOUR TREES—A CROP," how to grow and harvest them in the Douglas fir region.)

Star of the Sea Catholic

First Sunday of the month at 11:00 a. m.
 Other Sundays at 8 a. m.
 Rev. Fr. Donald Denman

Seventh-Day Adventist

MANSON METCALF, Pastor
 9:30 Sabbath School, on Saturday.

11:00 a. m.—Preaching Service.
 8:00 p. m. Wednesday, prayer meeting, lead by Cecil Watt.

4:00 p. m. Young People's meeting.

8:00 Wednesday evening, prayer meeting. The subject will be The Water of Life.

7:30 Friday evening. Illustrated lecture by D. N. Reiner. All are invited to attend.

At the church service last Sabbath, J. T. Jacobs spoke on "The Sure Foundation." Whosoever builds upon the solid Rock, Christ Jesus, that life will be a glorious triumph.

Baptist Community

J. L. MUMBOWER, Minister
 Mrs. A. F. Pierce, Sunday school superintendent.
 Sunday school for all ages at 9:45 a. m.

Morning worship at 11 a. m.
 Evening Service at 7:30 p. m.
 Prayer meeting and Bible study at 8:00 p. m. Wednesday.

Choir practice, Thursday at 8 p. m. Mrs. Lucille Patterson, director.

Assembly of God

At I. O. O. F. Hall
 W. R. PATTERSON, Minister

Residence: Pioneer Road
 9:45 a. m. Sunday school.
 11 a. m. Morning Worship. Come for Sunday school and stay for this worship hour.

7:45 p. m. Evening worship. The church where you hear the whole gospel for the whole man.

Typewriter ribbons, adding machine rolls, and typewriters are available at the Pilot office. See The Pilot first.

Land Available If 'Yes' Vote Given At School Election

Continued from Page One

Georgia Fromm, county school superintendent:

"If your school district has delinquent taxes for years prior to 1948-49 which were collected in 1950-51 and 1951-52, and now on hand, you may call a special election to place these delinquent taxes in a special fund for the purchase of sites."

A letter from Bernard Mather, Curry county treasurer, indicates that of this year's turn over to the district, \$7,743.39 was levied prior to 1948-49, and therefore available for payment of the foregoing sites, if authorization is voted by the legal voters of the district.

If authorization is not granted by the voters to expend this back tax money toward purchase of the site, then the money is included in "cash on hand" and contributes to the equalization program of the Curry County Rural School district in the same manner as any general fund cash on hand amount.

In addition to this back tax money, authorization is also being asked to expend the remaining amount needed from Serial Levy money now on hand.

It is therefore to be noted that the voters are asked to approve two things:

Purchase of the three tracts of land as recommended by the State Department of Education.

Authorization of moneys now on hand for the above mentioned purchase.

No new money or bond issue is being asked; only authorization to use money now on hand.

If the vote is "yes" purchase will be made and money expended as outlined. If the vote is "no" the \$7,743.39 back tax will be considered "cash on hand" and contribute to the equalization of

budgets of the Curry County Rural School District, and the remaining amount will remain in the serial levy account of District No. 17C.
