

SMITH RIVER

Mrs. Eva Hill received an interesting letter from her nephew and his wife, Mr. and Mrs. Chas. Jensen while they were in New York where they accompanied their children, Wilbur and Judy who appeared on a television-radio show during National 4-H week. The children played on the U. S. Rubber Co. program, under direction of John Snyder, the president. Wilbur plays the trumpet while Judy plays either the saxophone or clarinet. The Jensens had a wonderful time, telling Mrs. Hill of their trip to a cathedral, which has been under construction for many years. The corner stone was laid in 1892, and when finished will be the largest Gothic cathedral in the world, seating 15,000. It contains numerous beautiful chapels and people of every denomination and creed contributed to its construction. The Jensens are residents of Denmark, near Langlois. This is their second trip east for the

youngsters who attended the 4-H convention at Chicago last November. It was there that they were chosen as the two outstanding 4-H musical talent of the nation. They represented Oregon.

O. H. Bengtson, over the telephone Tuesday, sounded like he

had lost his voice. For an attorney (or anyone else for that matter) such is almost a tragedy.

Quite a sight it is to watch the youngsters in the safety patrol guiding the youngsters across the streets at the designated intersections. Those youngsters who may "wave you down" have the

power of the police at their disposal, and should not be disregarded in any way.
