### Primary Ballot Adds To Confusion

Friday, voters of this precinct and thousands of other precincts will go to the polls to cast ballots for their choices of candidates. Just how many voters are certain what they wish to accomplish? Certainly, with the primary ballots being as they are, with 60 delegates seeking nomination for delegates' position at the national convention, it is likely that there will be plenty of confusion.

The Pilot would not attempt to suggest a choice, since there seems to be many "fogged" issues. An advertisement appearing elsewhere in this issue, calling attention to voting for eight delegates, does not clear up any of the confusion. What will be the result? Just like so many of the Oregon issues—no decision—more confusion.

Politics is that way—more the confusion he is able to contribute, the better it seems the politician becomes.
