Aqua Carnival Is Gold Beach Event For July Fourth

GOLD BEACH—Speedboat races will be the big attraction July on Oregon's scenic Rogue river.

Rogue River Rogues Speedboat Association of Gold Beach and Wedderburn, sponsors of the third annual Rogue River Aqua Carnival, is putting finishing touches on plans to entertain an expected record number of visitors with a full day's program of races that will draw enthusiasts from Washington, Oregon and Idaho, as well as northern California.

Famous for its sports fishing, the Rogue has gained new recognition in racing circles as an excellent course for this popular sport.

Big posters advertise the events to be staged during the day.

Rev. P. C. Knudson Leaves Smith River

Rev. Porter Knudson, for the last two years pastor of Smith River Methodist church, has been transferred at the recent conference, to Soledad, Calif. He and Mrs. Knudson are this week leaving for his new assignment.

Rev. Knudson was placed at Smith River two years ago by the conference bishop, and was given the Smith River and Klamath churches. The Klamath Church at the time was planning a building program. He replaced Rev. E. C. Hicks, retired, who had been filling in at the pulpit for more than four years previously.

Next Sunday, and possibly a few more, Rev. Hicks will occupy the pulpit again, until a successor has been named to Rev. Knudson.

Rev. Mr. Hicks now lives with his son-in-law and daughter, Mr. and Mrs. R. D. Rowley, on their acreage, just north of the Winchuck river.

Know your OREGON MILK CONTROL LAW

What's that?

... you mean I must pay the same price for milk I carry home myself?

Yes Oregon Milk Control compels stores to charge as much for cash-and-carry milk as you pay for home delivery—a requirement in which Oregon stands almost alone among the 48 states.

Among cities of Portland's size or larger, 92% have lower prices for milk bought in stores, with an average saving of 1½ cents a quart. Portland is the only such city west of the Mississippi where store and delivered prices are the same. The six cities where store customers save most are:

New York City.....	4¼c
Minneapolis.....	4c
Washington, D. C.....	3c
Detroit.....	2¾c
Chicago.....	2½c
Kansas City.....	2¼c

(U.S. Dept. of Agriculture, May, 1952)

Lower store prices are possible in Portland, too

This fact was disclosed by Oregon State College's two investigations of distributing and retailing costs for the Milk Control authorities published in 1951 and 1952. These cost studies show:

1. Milk could have been profitably priced an average of two cents lower by half the stores surveyed (most of them independent stores) when supplied by half the wholesalers studied.
2. A four cent saving could actually have been passed on to consumers by Portland's most efficient independent store, supplied by Portland's most efficient wholesaler.

The questions and answers below show some other ways in which Oregon Milk Control affects YOU.

- Q. Does Milk Control limit the richness of milk?**
A. Yes. The richness (butterfat content) of milk sold in each price range is limited by the rulings of the Milk Administrator.
- Q. Does Milk Control set the price you must pay?**
A. Yes. That is the purpose for which the law was designed. It sets floor prices, not ceiling prices.
- Q. Does Milk Control discourage competitive distribution of milk?**
A. Yes. No one can enter the milk business if the Administrator says such new competition might disturb existing distributors.
- Q. Does the Oregon Milk Control Law regulate Sanitary conditions?**
A. No. It has absolutely nothing to do with the sanitation, health inspection, cleanliness, or the purity of milk.
- Q. Does Milk Control limit the supply of Grade A milk?**
A. Yes. To sell Grade A milk for your use a farmer must first get permission from the Administrator. If he gets permission (and many do not), he is given a quota. If he produces more he must often sell the surplus at a lower price for cheese or other factory uses.
