## Pit Awaits Next Year's Festival

Warm days this week have changed the appearance of Azalea State park considerably from Festival time in that the azaleas out have shedded rapidly and those that were not in bud have popped open as the result of sunny days and warm nights.

The permanent barbecue pit

has been cleaned, and covered with planks and ready for next year's event. A picnic table rests on the coverage, so strong has it been made.

Vic Reynolds, who was in charge of the barbecue for the Festival, will be happy to know that the pit will be ready for next year without too much preliminary work. For the interest of readers a more detailed account will be given later of Mr. Reynolds' work of preparing barbecue meat at its best.

The stoves and tables are ready for the use of picnickers.
