

## Curry County Youngsters Attend Four-H Camp at Myrtlewood

By KENNETH W. PRIEST  
County Extension Agent

Forty-four Curry County 4-H youngsters attended the annual 4-H Summer Camp at Camp Myrtlewood over in Coos County last week. If you can set up any kind of scale to judge whether they had a good time or not the scale could consist of noise, sleep and eating. On the basis of that scale all of these youngsters certainly had a wonderful time.

From Coos, Curry and Douglas there were a total of 181 4-H club members at the camp and you can believe me that the lung power of 181 youngsters is amazing.

During the morning session the youngsters were broken up into four groups and classes were held in leathercraft, bugology, fly casting and fly tying, forestry, electricity, singing and the making of what they call, lummi sticks, an Indian game, and also the making of kaleidoscopes.

The afternoons were devoted to a rest period for one hour, a program of sports, volley ball, soft ball, and a swimming period.

How those youngsters could hit that cold water, certainly amazed me.

Fortunately, we had a staff at camp that prepared meals, that more than fitted the appetite of these youngsters. I am sure that every one was well fed and I am sure that every one slept well, after the first night, and as camp progressed from day to day, the youngsters became a little harder to get up in the mornings, each day.

An item at camp which we are all proud of was the winning of the best camp citizen award by George "Butch" Mateer, for the third year in a row, giving George permanent possession of this trophy. This is a record that Curry County can be proud of.

I think we broke several records during this 4-H camp, one of them was in spite of the slightly held up start we did arrive at camp on time and on our return we not only left on time but we arrived approximately 45 minutes ahead of our schedule and another amazing record broken was neither going nor coming were any of these youngsters car or bus sick and on our Curry County roads that certainly is a record.

We hope that many more Curry County youngsters in 4-H will take advantage of this summer camp next year. There is no limit as to the number that may attend and we hope that next year we can double the number of youngsters who attended this year.

We had the normal amount of homesickness, sniffles and other minor ailments, and we feel fortunate.

### LEGAL NOTICE

The Clerk of School District No. 17C, Brookings-Harbor, will receive sealed bids on the following up to noon August 21, 1953:

Item 1. GASOLINE: to be pumped in school busses at service station or garage. Bidder to specify grade of gasoline, delivered, price per gallon, less excise tax.

Item 2. Lubrication of busses, including oil change. Bidder to specify (a) lubrication charge; (b) cost of oil being supplied; (c) cost of other materials and supplies.

Item 3. BUS TIRES: 8:25:20 and 9:00:20. 1st grade—10 or 12 ply. Bidder to furnish tire specifications with bid, and bid on unit price, less excise tax.

Item 4. TIRE RECAPPING service for 8:25:20 and 9:00:20 bus tires. Bidder to specify price per unit, and furnish all materials and labor.

Bidder may bid on any or all items.

School District No. 17C will furnish Tax Exemption Certificates. School District 17C reserves the right to reject any or all bids.

nate with that number of youngsters that the health conditions held up very well.

Here is a word from Jerry Nibler, crop specialist from Oregon State college, on poison oak control. Jerry said that poison oak is the most troublesome in the spring but that August is the best month for poison oak control using ammate. While this chemical will probably find little large scale use it is one of the most effective and might be of interest to folks to kill out small amounts of poison oak. Jerry recommends 1½ pounds of ammate to a gallon of water sprayed on the plants until they are thoroughly wet. Unlike 2-4-D, ammate will not contaminate a sprayer but it is very corrosive and equipment should be thoroughly rinsed with water after the use of ammate.

Another word from Jerry is that August is a good month for seeding ladino clover, pastures of alfalfa if irrigation is available and the land is prepared. Jerry also goes on to say that one crop year can be gained instead of waiting until next spring. For the best results the seeding should be in by August 15 to 20, to allow the seedlings time to get established before winter. Even in the longer growing season areas, September 5 is about a deadline in most years. Small seedings of ladino with grass allows better opportunity for the grass to keep up with the ladino. This will reduce the bloat problem that is often particularly severe with a spring planted ladino pasture.

### HOUSE OF SHOES BUSY

The House of Shoes, owned by Margy Goldsberry and Amber Campbell which moved to the Southern Curry Building recently is now putting on its shelves many styles and sizes for the school children.

They have carried out a brown and green color scheme and used a wallpaper pattern of prancing mustangs, very clever. They were formerly open in the C and H Logging Supply Building on South Wharf street.

## A FLORAL NECKLACE FOR MILADY

by MARY HAZEL DRUMMOND

Author of the Book "Styling Corsages with Garden Flowers"

Many home gardeners are up-to-date in sowing flower seeds of new introduction, introduced by hybridists, but they have forgotten the old-time garden favorites such as the double hollyhock.

Here you might give a cry that "there is no room in my garden to grow the large type flowers." In some cases this

hollyhock, for example, is a semi-double fringed flower in shades of soft pink.

The double hollyhock has several features which will make it a welcome addition to your garden. The tall flower spikes are excellent for flower arrangements in the house. The double blooms are similar in form to the tuberous begonias and are also ideal for corsage, wedding bouquets and necklaces.

The simplicity of a hollyhock flower necklace is designed to be worn with gay, light summer fabrics. This particular floral arrangement lends itself to the low, rounded neckline that is in fashion this season.

Very few materials are needed to make your own necklace. A plastic chain, velvet ribbon or a simple strand of beads will serve as the base, plus one double hollyhock blossom (color to harmonize with the dress to be worn), two small sprays of ivy, some fine wire and florist tape.

Designing the necklace is easy. After leaving the bloom in cold water for a couple of hours to insure freshness, simply follow the four steps shown in the drawing.

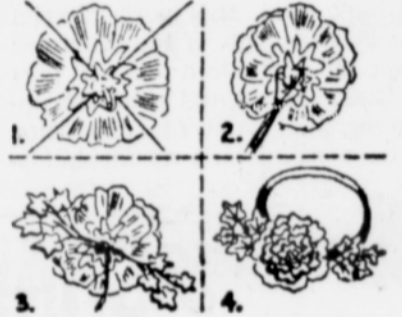

Beautiful in the garden —  
or as a floral necklace

is true, but did you ever stop to think that the hollyhock grows in an upright position, with stalks five to eight feet in height?

It is recommended that the seeds be sown in the garden in a location as a border or background planting where they can grow and add beauty to an otherwise unsightly or barren spot. To achieve best results, first treat the soil to a six-inch depth with a scientifically tested soil conditioner such as Krillium to provide loose, crumbly soil.

If properly planted, these flowers will bloom magnificently on large stalks with ruffled, double ball-like blossoms in a beautiful range of colors. This selection runs from various shades of white through pink, rose, red, yellow, violet and purple, offering a variety seldom seen in hardy flowers. The Indian Spring

### Designing your necklace

(1), Run fine wire through the petals in opposite directions, forming a cross. Then (2), bring the wires straight down in a parallel line and wrap with tape. Next (3), wire the ivy to the chain and fasten (4), attach the bloom with wire to the center of the necklace. Cover all wires with tape and, presto, you have a lovely floral ornament.

### HARBINS HAVE VISITORS

Mr. and Mrs. Cogswell of Klamath Falls visited Mr. and Mrs. L. Z. Harbin at Snug Harbor last week. Another visitor was Mrs. Harbin's cousin, Leonard Hallinan of Oregon City.

### MRS. DEMPSEY GONE

Mrs. Ed Dempsey left last week for Los Angeles, driving her mother-in-law, Mrs. E. H. Dempsey, home. She plans to return to Brookings this weekend.

### MISS CANTRALL VISITS

Miss Cordelia Cantrall of Klamath Falls is here visiting her brother, Howard Cantrall, of Harbor, as well as other friends who formerly lived in her city.

### WHITES HAVE VISITORS

Visitors at the home of Mr. and Mrs. F. E. "Bert" White were Mr. and Mrs. Henry Gammon of Santa Monica, Calif. Mr. Gammon is the brother of Mrs. White.
