**Coos - Curry
Museum Location
To Be Voted On Sat.**

A vote as to the location of the permanent home for the Coos-Curry Museum is to be taken on Saturday, April 10th. All members of the Coos-Curry Pioneer and Historical Association who are interested in the museum which is to house the many contributions of early days in Coos and Curry counties, are urged by the committee to attend this meeting. This is to be held in the Coquille Hotel with a no host luncheon at 12 o'clock. Tickets are priced at \$1.25.

The Association President, Ed Detlefsen, and the building committee of J. D. Carl, Bert Gould and J. E. Norton, report that there are the following three sites from which to make a choice: the lot at 254 South Henry, (east of the Court House in Coquille), the present location of the museum which is located on city owned property adjacent to the Community Building in Coquille and a site at Coaledo, extending from Market Street south to the Coaledo bridge. This piece of property lays between Highway 101 and what was formerly the location of Highway 101.

Each member is urged to remind other members to be present in order to help in deciding this important matter.

Mrs. Bruce Purdy,
Publicity Chairman.

TAKE BUSINESS TRIP

Mr. Henry Kerr left Tuesday on a business trip to Portland. He was accompanied as far as Coos Bay by Charles Grayshel.

Right Around Here

By MAX BRAINARD

Dale Bravo made a trip to Coquille this past week.

Considerable interest is centered about the approaches to the North Fork of the Chetco bridge. High water of the river is beginning to take out part of the approaches and it is said the forest service and county are studying ways to check this erosion.

Frank Blatchley made a hurried trip out to Winchester Bay, on business, during the week.

Work on the Port Orford-Euchre Creek section of Highway 101 now extends through, in various stages, from one end to the other of the project. A work shop

is being built at Fox Hill, practically on the bank of Euchre Creek and grades are being worked down between the old Will Coy home and the ocean, under Koblenzars' Auto court, and below the home of Steve Spoerl.

It is reported that surveyors are now working on the Gold Beach-State Line section. The portion between Euchre Creek and Gold Beach has been pretty well engineered.
