

### OHIO STATE HONORS HARBORITE'S SON

The athletic son of a Harbor man is to be honored by Ohio State University, where May 15 is to be known as 'Paul Ebert Day'.

Paul is the son of Ralph Ebert of Harbor. In the last three years he has become the Buckeyes' outstanding athlete making All Big-Ten teams three times in basketball, and once in baseball. He made the second string baseball team one other year.

Paul has the all-time scoring record at OSU, as well as several other records. A number of major-league teams cast covetous eyes on him before he went to college, and the Columbus Red Birds of the American Association are now discussing a summer contract with him, which would permit his entering medical school this fall.

His father here said, however, that he believes Paul will complete his medical education before considering professional sports seriously.

### Eight Years Ago In The Pilot

APRIL 25, 1946

Voters of District 17 approved construction of new grade school. Redfield's Grocery plans to open next month. So does B and B Burger bar.

#### EASTER COMPLETE

Mary Lou Berger who is a dental assistant in Eugene, spent Easter here with her parents, Mr. and Mrs. Carl Berger.

The Berger's Easter was made complete when they received a phone call from their son, George, in Ketchikan, Alaska.

George is a private in the Alaska Communications Service, and has been in the service about a year.

His first question to his mother was, "What are you having for dinner?"

#### SCHOOL WORKS

The Speech Class is working on their one act plays to be given on Saturday, May 8th, and the band is practicing for their concert to be given on May 13.

### Auto Big Factor In Fishing Trend

Over 300,000 fishing licenses were sold in Oregon during 1953 representing angler's fees of \$1,122,579, according to Lloyd Crowe, of the Oregon State Motor Association. Of the total licenses, or 302,723 sold, 24,440 were non-resident, showing an increasing number traveling, mostly by automobile, to Oregon's fishing paradise.

More than 17,000,000 fishing licenses were issued last year throughout the country according to figures supplied the American Automobile Association by the Sport Fishing Institute. California Michigan and Wisconsin issued more than one million.

Mr. Crowe said that this high number was due in a large degree to the accessibility of streams and lakes by motor car. He said also that construction of dams and the emergence of artificial lakes have been significant in the upward trend of fishing. However, the A.A.A. warned many streams and banks are suffering from pollution and erosion, and too frequently there is little thought and planning in proper conservation of fishing resources.

#### MRS. VAN CAMPEN REQUESTS VISITORS AT NEW LOCATION

Mrs. Anna Van Campen, who has been ill for some time, is now located at Haun's rest home, near the Ocean Drive-In Theater, North of Crescent City.

Mrs. Van Campen is able to see visitors, and would welcome them. The rest home is reached by turning left at the Theater, left again on the first road, and driving about one mile to the Haun home. If you know her, please try and stop by.

### Hello World
