A couple of weeks ago Frank Thompson, the big trenching machine mabnet from out Harbor way, came to us here at DAVIS TRUCK AND TRACTOR with a problem—He is getting a lot of work for his machine at Crescent City and Smith River—The machine is rather slow on the road and Frank is one to give good service. We fixed Frank up with a new R130 dual wheel pickup and a tilt bed trailer to haul his machine. Now Frank gets there in a hurry.

Next time you hae a problem, be it transportation service—or parts why not drop in here at DAVIS TRUCK AND TRACTOR and just see what we can do for you. Remember we SERVICE what we sell.

To the People Of Curry County

The people of Curry County will vote in the near future for candidates both Republican and Democratic for County Judge. I think it is a serious matter. Curry County is a million dollar corporation. Many of the candidates have no actual experience and have not made a success of their own business. This is not the time or place for horseplay.

Access roads are needed to open up the back part of the county. Especially the National Forests. The county needs good roads, pay-rolls and progress. The access roads will attract logging and lumbering. The money to build these foads will be appropriated by the Federal Government. The government will then be accessible and sold and Curry county will reap her share of the harvest.

I would sincerely like to be elected county judge as I have had the experience and can give you service. My home is on the court house square in Gold Beach. I am a business man and have had four years experience on a county court. I know the many problems that are handled by a county judge and the Curry county often presented to the county court. Without warning and let me tell you I can say no, if I court. I know how business is ferests of Curry County. I will think it is not for the best in-not work for any clique. I am a hard man with a dollar. I expect a dollar value for every dollar spent. At the present time I am against building a new court house.

I think the Curry County Court should make a start in oiling the dusty gravel roads of this county. I am not making any big promises but will give you action, efficiency and results. Let me have the opportunity to serve you as County Judge.

JUDGE GETS DEER OUT OF SEASON

We don't know just what crime you would call it for an upright Justice of the Peace, like our Judge Charles Schaal to slaughter a deer out of season, but his wife reports that he did just that Monday. They were on their way home from Klamath Falls when three yearling deer jumped out on the highway in front of the car, and while they could dodge two and not hit them, the third doubled back and got in front of the car and was killed.

Judge and Mrs. Schaal left Thursday for Medford where he went to Camp White for a check-up, and then on to Klamath Falls where they spent Mothers Day with their son, Melvin Howie and family.
