

## Scout Building News Report

By MIKE PAGE

The Scout Building project is not going so well. Last Saturday only two persons showed up to help Mr. Gribble on the forms for the Trusses. But nevertheless the forms are done and ready for concrete. We hope that the concrete will be poured this week.

Don't forget, Saturday, June 26th is the big day. The Union Carpenters will be there ready to

go. Now let's get some help for them. Mr. Gribble will be on hand to line out each one as he comes. If you are not a carpenter and want to help on this deal, don't let that stop you from showing up, there are plenty of different jobs going on, that must be done. We could use a truck or two to haul some gravel for the fill. Don't be bashful, if you can do anything to help, step up. To date, we don't even have any sidewalk superintendents on hand when we are working. Maybe they don't know where the building is. It is located on the highway near the Azalea State Park.

There are several other community projects going on, but we think that this one is just as important as the next one. Ask your boys' Scoutmaster how their meeting place is and how a building with more room would work out for their programs. This building that we are trying to get up will take care of ALL Scouting in our location. Besides the building will be an asset to the city, it is not going to be a building that anyone will be
