Oregon Accidents Kill 25 Persons During July

Twenty-five persons were killed in Oregon traffic crashes during July, bringing the year's street and highway toll to 201. It was the lowest July count since 1949 when 24 were killed. Forty died in accidents during July of 1953, 47 in 1952, 33 in 1951 and 56 in 1950.
The July toll may still go higher, Secretary of State Earl T. Newbry cautioned. There is always a possibility that delayed reports will be received or that persons listed as injured may succumb at a later date.
Officials noted that Oregon still is making progress at reducing accidents, injuries and deaths. Accidents are down by several thousand so far this year, and the latest death figure, 201 in seven months, compares with 220 recorded for the same period last year.

CHRISTIAN SCIENCE CHURCH
"The Lord is my light and my salvation; whom shall I fear? the Lord is the strength of my life; of whom shall I be afraid?" (Psalms 27:1) is the Golden Text for a Lesson-Sermon entitled "Soul" to be read in all Christian Science churches August 15. Correlative passages from the King James Version of the Bible and "Science and Health with Key to the Scriptures" by Mary Baker Eddy declared the Soul of all life to be God Himself.
"The sun is not affected by the revolution of the earth. So Science reveals Soul as God, untouched by sin and earth, — as the central Life and intelligence around which circle harmoniously all things in the systems of Mind" was a pertinent citation from "Science and Health." (p. 310).

Twenty-five per cent of all drivers involved in fatal auto accidents in the U. S. last year were under 25 years old.
