

AZALEA GARDEN GROUP TO MEET

The next of the Azalea Garden club will be the Christmas Show, and that is scheduled for December, next Thursday. This is a required program of the State Federation of Garden clubs.

The program committee chose as their theme, "Christmas Greens Show", Mrs. Gerald Guess, the club's Flower Show Chairman is in charge, assisted by Mrs. T. F. McKenna.

In announcing her program,

she said that any berries should be evergreen and that one could tint the cones. There will be no divisions or classifications or judging, but the good and bad points will be discussed.

Mrs. McKenna said she would like to see some arrangements using the Madonna. She thinks Easter and Christmas is the only time it is appropriate to use them, also if your church has a special altar arrangement.

Mrs. Dale Chapman is in charge of the gift exchange, using as her theme "something for the gardener". This she said could be something to use in flower arranging, seeds, slips or something to beautify the yard.

Plans Begin

(Continued from Page One)

Garage on out was read, petitioning the council for street lights and at least two hydrants.

The council requested that a letter be written advising the group that two additional lights have been ordered, one for the Mill Beach Road corner, and one for the entrance to Azalea Park, and that no other lights could be bought until a new budget is in effect, because of the shortness of funds.

Also the council said that two hydrants were slated to go into the area, and the council was doing all they could to get them installed.

Gold Beach Dinner Start Plans For Christmas Lights

The Rev. John Shideler, representing St. Timothy's church, will take a car load of ladies to Gold Beach this Wednesday to help the Gold Beach ladies with their Christmas Seals.

The Curry County Tuberculosis and Health Association had scheduled a no-host dinner meeting for the group at the Wagon Wheel in Gold Beach on Wednesday, which the Brookings group will attend. Dr. Richard A. Wilcox and Verne Reiersen, of the state board of health were to be on hand to discuss the needs of a sanitarian in Curry County, and other sanitation problems.

Attending from this area were Mrs. Lewis Peterson, Harbor; Mrs. Blaine Gribble, Mrs. James E. Koeller and others. Mrs. Edna Barnhart, Gold Beach is Christmas Seal Chairman for Curry County this year.

Is Brookings and Harbor going to be aglow with Christmas lights as it was last year? That question was being asked today, as the Christmas spirit began to make the rounds. Reports were that last year the outside lighting and decorations were very well done, and feelers are being put out to make this an even prettier Christmas in this area.

Wonderful Co-operation was received last year by those who asked that lights be put outside, both in individual homes, and on business establishments. The outside decorations should go up from about a week before Christmas to New Years Eve.

Mrs. Cliff Lindskoug has volunteered her services for anyone needing help in decoration designs and patterns.

Groups or organizations were asked to contribute time and labor in helping set up the decorations to make Christmas a truly beautiful one in this area.

Rain In Brookings—

Thanks To Yarnell

It hasn't rained in Brookings lately, so Don Yarnell thought he would do something about it. Operating a cat in the new Bank building excavating Yarnell scrap-

ed a 6 inch water main, which sent a geyser 100 feet in the air for about 20 minutes, nearly flooding the excavating work. Eventually the line was shut off, repaired, and a water bill sent out.
