From where I sit... by Joe Marsh

Neither Rain Nor Hail ... Nor Broken Boxes!

Red Fowler, local R.F.D. mailman, got an English car—with a right-hand drive so he can stuff mailboxes from behind the wheel.

"It's great!" Red reports. "But it would work a lot better if all box holders would follow regulations. A mailbox should be 10 inches high, on the right of the road... within reaching distance from a car window. If one is knocked down, the owner should make repairs pronto."

Come to think of it, Red is pretty good about his obligations—delivering packages, supplying

stamps, cashing money orders—saving us trips to the Post Office. Let's fix up those boxes so he can get his chores done fast.

From where I sit, obligations always work both ways. For instance, I figure that I'm obliged to respect your right to enjoy your favorite beverage—be it coffee, tea, beer, buttermilk or whatever. Why? Because I'd expect you to do the same for me. The Golden Rule should be followed "to the letter" by everyone.

188-hp Buick SPECIAL 6-Passenger, 4-Door RIVIERA, Model 43

This 4-Door Beauty is the Newest Hit in Hardtops

You certainly ought to come in and see for yourself why this new kind of hardtop is headed for the best-seller list.

It's a Buick Riviera, of course.

Which means the low and rakish look of a Convertible—a solid steel roof overhead—and no center posts in the side window areas to obstruct your view.

But that's only the beginning.

Here you get two extra doors. They open to the rear compartment. So no one in the front has to move when someone gets into or out of the rear.

Here you get massive half-pillars on either side on which the front doors latch and the rear doors hinge. (That's why you see no center posts above the door line.)

Here, too, you get wholly new principles in body design and strength that give the extra safety of rock-firm solidity at the top, sides and bottom.

And here—bless those Buick engineers!—you get a lot more room in the rear compartment.

For the 4-Door Riviera gives you over 9 inches more hiproom and 5 inches more legroom—yet with no increase in wheelbase or over-all car length.

So we repeat—you certainly ought to come in and see this stunning new kind of hardtop.

It's the very last word in beauty, comfort, convenience. It's available in Buick's two lowest-priced Series—the SPECIAL and the CENTURY. And it's all Buick—with Buick power, Buick ride, Buick handling—and the spectacular performance of Buick's Variable Pitch Dynaflo.*

Drop in today—tomorrow at the latest—and learn what Buick's all time record sales year can mean to you in the way of a whopping-big trade-in deal.

*Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on ROADMASTER, optional at modest extra cost on other Series.
