a match has a head but no brains

No one should expect anything from a match but a flame. By its careless handling you risk the lives of your family as well as the destruction of your home and the loss of valuable personal property.

Sensible property owners do two things. They make fire prevention a day-by-day habit. They protect what they have from financial loss by insuring against the peril of fire with a qualified insurance representative. See this agency today, tomorrow may be too late.

Mrs. Jack Howard returned last weekend from a visit to old friends in Sitka, Alaska. Mrs. Howard says she took a batch of Brookings weather along with her and only ran into a light mist twice. One of these was around the Puget Sound. She travelled by air from the States to Alaska.
