

A Lesson from the Chinese

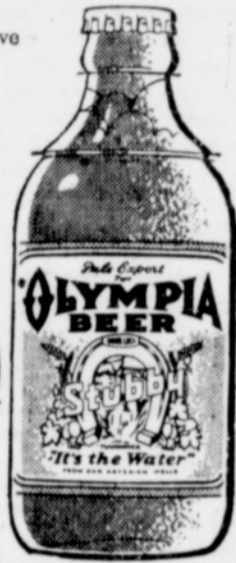

The story is told that the Chinese pay the doctor to keep them well, and if they contract illness, the doctor pays them instead. Whether or not this story is true, the general idea is sound. Serious illness often can be prevented by regular health examinations. Form a habit of visiting your doctor often—at least twice a year. If you do not have a family physician, we will be glad to recommend several from whom you can make your selection.

Radar To Control Brakes on '57 Cars

Car brakes by radar may appear on some of the 1957 models with future radical changes to follow, according to an article in the current TIME. Replacement of existing piston-type engines is coming and re-design of the whole car itself, but these two latter changes must wait, primarily, owing to the tremendous cost of re-tooling.

Radar installations, however, which do not require either the discarding of costly plant equipment or problems in metals, is the first to come. The system directly actuates the car's brakes in direct proportion to the distance between the car and the object ahead and can be offset by the accelerator, as in passing another car. If the object is dangerously close the braking action is more acute.

The first step, TIME says, in power plant design may also appear in some of next year's cars—elimination of the carburetor and replacing it with fuel injection directly into all the cylinders. This change becomes desirable because of the increasing cost of carburetors and better design and less cost of fuel injection. Better and more effective motor operation with less gas consumption is assured. This improvement, which may take time to adapt to all cars, will probably be the last change in existing piston engines.

The industry is predicting the eventual replacement of the present piston engine with gas turbines, but an intermediate step will probably be what is called a "free-piston" engine, a combination of piston and turbine principles. In the free piston engine there is no crank shaft—only two opposed pistons rigged to develop a very high pressure which will be used to drive a turbine whose power is transmitted to the wheels through a simplified system. This method will result in great saving of weight, less cost, less friction losses, and more efficiency.

Auto engineers say production lines on gas turbines is still quite far off. One manufacturer has a turbine driven car being tested on the road but building them is a matter of junking all tooling of piston engines and transmissions. Besides, heat resisting alloys re-

HIGH SCHOOL HAPPENINGS . . .

Pep Club, organized for the purpose of boosting school spirit and sports, met in the gym and elected officers Friday during activity period. The officers are as follows: President, Connie Jensen; Vice-President, Karen Wallace; Secretary-Treasurer, Joan Kuhnenn.

The girls chose to wear white sweaters and navy blue skirts as a uniform to all the games. The executive board, consisting of officers and cheer leaders, are arranging a constitution and setting up a point system to regulate membership.

The talent show committee chose April 7, 1956 as the tentative date for the Talent Show, which is being planned by Margie Fitzhugh, Ted Loring, Sally Swanson, Ellis Yelton, Phyllis Cole, Joanne Renhard, and Pat Taylor. Talent will be contributed by the classes and clubs in the high school.

February 11, 1956 is the future date set for the school carnival. The planning committee consists of Connie Jensen, John Smith, Shirley Hewitt, Charlotte Jensen, Janet Glass, Alvin Sanders, Paul Williams, Jerry Fox, Bob Berger and Sharon McClain.

The Student Council is revising quired for turbines must be developed and mass produced. Style changes must likewise be brought about slowly, the article advises, although, some will appear in some '57 models. At least one manufacturer will come out with curved door panels to allow for making their models lower and smaller wheels are also in the offing.

There will not be sufficiently radical changes to upset car sales by people planning to drive their current models until all planned improvements are rolling on the roads.

the old Constitution used for the Student Body and bringing it up to date. They met at the home of Jackie Smith, Thursday, to continue their work on it. The council also voted on the monogram to be put on the new curtains now seen in the gym.

Innertube printing, which some of the Art Club Members will be using for decorating Christmas cards is the newest project of that group.

The officers of the club are President, Holly Mackey; Vice-President, Judy Tyler; Secretary, Linda Sanders; and Treasurer, Larry Way.

The club meets every Tuesday for an hour and a half after school. Mrs. Cooper, advisor, extends an invitation to all students who are interested to come and join them.

A candy sale was staged by the Girl's Athletic Association as a money raising project.

Viola Jackson, junior, has introduced a "mum" composed of blue and gold wood fiber and ribbon to sell as another project.

The girls are planning a Play Day in January with the girls in Curry County school is invited.

Biking, bowling, softball, tumbling, horse-back riding, and volleyball are ways the girls are earning points for their athletic letters.

Karen Wallace, annual editor, and Marlene Olson, business manager, have been selling advertisements to local business establishments to finance the annual for the current school year.

The annual staff meets Friday evenings at 7:30 to plan a "dummy" and layout class pictures.

"In view of the fact that it was the first year for the birthday calendar campaign, it was successful," was the comment Mr. Diehl, music instructor, made when he was asked if he considered the results of the campaign satisfactory.

The total results are as follows: 276 calendars and 711 listings were sold with the profit being \$32. The calendar will be delivered the last of December or first of January.

Mr. and Mrs. Darrell Bell, and two sons, went to Talent, last Wednesday, to be in a family gathering in celebration of the 60th wedding anniversary of Darrell's grandfather and grandmother, Mr. and Mrs. Tom Bell. The couple were married at Medford and are both from the earliest settlers of Jackson County.

Eight weeks ago the young people of the Baptist Community Church decided to provide a scholarship for an Indian student at Bacone College, a Baptist College for Indian students at Bacone, Oklahoma. By contributions the scholarship has already been paid for and the student selected. He is from Arizona, and went to Bacone on faith.

For '56 choose FORD... America's Favorite Station Wagon!

With Thunderbird Y-8 power . . . Thunderbird styling . . . and exclusive new Lifeguard Design

THREE WITH 4 DOORS

Eight-passenger Country Sedan
More stylish than ever, with new colors . . . stunning interiors. Like the Country Squire, it has an easily removable rear seat. Four doors give easy access for all eight passengers.

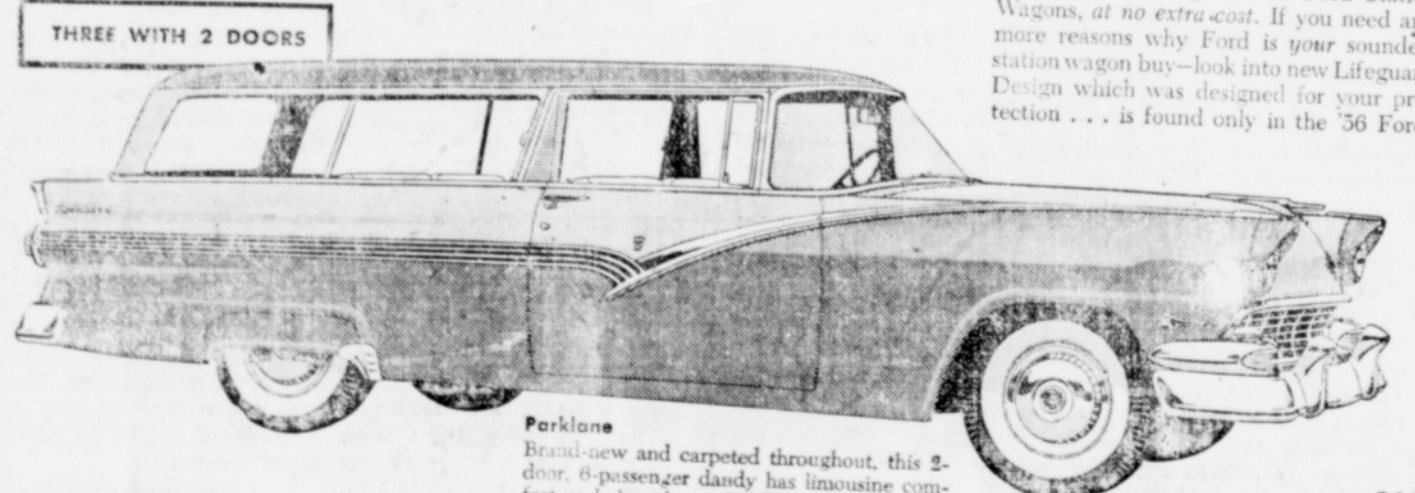

Six-passenger Country Sedan
Designed for those who want 4-door convenience with seats for six. Like other models, it has Ford's fold-into-the-floor Stowaway seat.

Country Squire
A queen among station wagons. Mahogany-finished steel panels give woodlike beauty to this luxurious, 8-passenger dreamboat.

There's more than meets the eye as to why Ford Station Wagons sell more than the two runners-up combined! Their Thunderbird beauty is apparent in all six models. But underneath that beauty there's a heart of "GO"—for the Thunderbird Y-8 engine is the standard eight in all Ford Station Wagons, at no extra-cost. If you need any more reasons why Ford is your soundest station wagon buy—look into new Lifeguard Design which was designed for your protection . . . is found only in the '56 Ford.

THREE WITH 2 DOORS

Parklane
Brand-new and carpeted throughout, this 2-door, 6-passenger dandy has limousine comfort and doesn't mind rolling up its sleeves.

Ranch Wagon
This favorite has two wide doors, easily seats 6 people. As in other models, lift gate and tail gate can be operated easily with one hand.

Custom Ranch Wagon
A 6-passenger beauty that converts in a split jiffy from a family liner to a super-spacious cargo carrier. Its clean interior can take it.

FORD STATION WAGONS

You're on the right track to low-cost car financing with "U.S.!"

Tell your dealer you want to pay for your car with a loan through U.S. National

- Low bank rates
 - Easy budget terms
 - Fast action—no red tape. Your dealer will gladly make all arrangements for you.
 - Local financing
- ... and you establish valuable bank credit.
