## Letter to Editor

There seems to be a lot of talk on the Sewer Bills being sent out and the Bond Issue coming up to be voted on for the sewer.

In regards to the Bills that have been sent out it seems they are sending them to everybody regardless whether you can be connected to a sewer or not. I cannot see if you can't be con-

ected to the Proposed Sewer why you should be billed for one.

In regards to the Bond Issue that is to be voted on by the People on January 20th, lets put our cards on the table and tell the people just what the Bond Issue is; as I understand there are two kinds that could be voted, one to be paid back out of sewer charges alone, the other one by taxation where every property owner in the City would be stuck for the tax and I mean stuck.

Now, to my knowledge, it has never been established who owns the sewer we have, whether Mr. Bankus or some one else. I believe this should be the question settled before we go into any sewer problem.

If the City intends to build a complete new sewer system I don't believe it can be built on anywhere near the \$50,000.00 Bond they are asking for. As we are under such a heavy tax for our schools and will be for some time, I believe we should think twice before we vote for this Bond Issue.
