Why FARM PROPERTY INSURANCE is your most dependable hired hand

You know best how Mother Nature can play havoc with your house and other farm buildings, machinery, livestock and crops. Fire, lightning, windstorm, tornadoes, flood and hail, cause tremendous property losses. Sufficient insurance coverage can give you all the protection you need. Then, when trouble comes, the promise of your reliable hired hand, your insurance policy, will relieve you of financial worries. When you're in town, drop in and we'll discuss how this "hired hand" can work for you.

### SKETCHBOOK

1955 must have been a good year because so many people can't seem to forget it. I have noticed at least four people write 1955 instead of 1956 in filling out forms, checks, or Subscriptions.

When I think of all the water we received the last month of the past year I don't want to even try to remember it.

But then again, a lot has gone over the dam, besides water. Brookings welcomed many new businesses into its city . . . our children got a new high school . . . the County received over \$300,000 O & C timber money . . . Brookings had a nice Azalea Festival . . . Rodeo Week went over big with almost everyone wearing western togs . . . the

COUNTY received over \$300,000 O & C timber money . . . the Chamber of Commerce took a poll of visiting tourists on their views of the roads . . . the city council started the ball rolling towards getting an adequate sewage system . . . the COUNTY RECEIVED OVER \$300,000 O & C Timber Money . . . at least several lilies bloomed so as not to disappoint the thousands of people who came to view the Annual Lily parade . . . Brookings was again represented at the world series when Mr. Baseball, Pete Lesmeister, travelled East to watch the classic . . . THE COUNTY RECEIVED OVER \$300,000 O & C TIMBER MONEY . . . an alert group of people formed the Quarterback Club with the idea of raising money and interest to field a high school football team . . . people within the city limits were given house numbers which indicated big city techniques were arriving . . . Now that I keep looking back over the year and the above written words, I would like to know: Did the entire County get their full share of that \$300,000 O & C MONEY? Every time the O & C money question is brought up around here our Office Cat smiles . . . when he smiles it means he smells a mouse . . . pardon us while we set a few traps . . . Do

### Far into the Night

NIGHT AND DAY throughout the year, scientists are working in research laboratories in the interest of public health. During the last two decades many diseases have been conquered. There is reason to believe that more and more progress will be made, that many afflictions now fatal will gradually yield to medical research. Your doctor, and he alone, is well informed on these new discoveries. He includes new medicinal agents in his practice as soon as their therapeutic value has been established. Depend on your doctor. Depend on us to fill his prescriptions.
