LEWIS A. PETERSON PASSES AWAY

Word has been received from Mrs. Lewis Peterson that her husband passed away at the Veterans Hospital, Portland, on January 31st. Interment will be at Portland. The Petetson home is at the corner of Highway 101 and Hoffeldt Lane. We hope to have his obituary in the next issue.

Peterson, a World War I veteran was a member of the local VFW Post and also a Mason.

Mr. and Mrs. D. D. Williams moved this week to their new home they recently purchased in Harbor.

CITY DIRECTORY IS PLANNED HERE

Plans went ahead to print a Brookings-Harbor city directory within the next few months. The project, which would include all the names living in the area, was undertaken jointly by the Publishers of the Pilot, and Morris Corderman.

Corderman will do most of the contact work, a terrific job in itself. It means that he will call on every house in the area to ascertain some facts, such as name, wife's name, number in family, mailing address, house number and occupation.

When the listings are complete the book will be printed, and bound in a hard cover. It will also include a list of the city officials, churches, organizations and maps of Brookings and Harbor area.

It is the first time that such a directory has been started here and it is hoped that all will cooperate by supplying the information.

NEW LIFE —

Mrs. Ted Freeman is trying to get acustomed to lightening up on her accounting work. After twelve years of juggling figures on a wholesale basis, day in and day out, here and in Gold Beach, she is glad to let Larry take over the Chetco Store books so she will just have the family accounts, and some home life to keep her interested.

RITA'S DAILY WALK —

At least one Brookings matron is doing her best to keep in shape. Mrs Pete (Rita) Tierce daily hikes from her home in Brookings to her work at Hanscam's, and home again at night. Storm or sun, she makes the trip every day;which certainly is something worthy of more commendation than just this space in a newspaper.

"LET'S LOOK AROUND THE HOUSE WHILE WE'RE AT IT"

A good idea. Just take stock of all the items of value in your home such as antiques, paintings, statuary, porcelain, tapestries or rugs and you'll see that collectively they're worth more than you ever dreamed. When you think of all the things you would hate to have happen to them, but which *do* happen, *all the time* . . . loss and damage from fire, explosion, windstorm, water damage, theft, vandalism, etc., then you can appreciate what an "All Risks" *Fine Arts Policy* can do to protect you from financial loss.
