**FORESTRY—U.S.A.**

**200 YEARS AGO** he strode all alone across the land, planting tree seed wherever he found a farm home. Today, tree planting is a united effort by State, Federal and Private Landowners. They face the need to make millions of loafing acres more productive.

**PROTECT THE FORESTS, RESTORE AND USE THEM WISELY**

Mr. and Mrs. Montie Leonard returned from a vacation trip to the Hawaiian Islands, and say they have had enough of them although they enjoyed the trip immensely.

Mr. and Mrs. Ike Smith, old time residents of Gold Beach, were strolling the main stem, looking the town over, Thursday.

Householders, especially in the outlying districts, are cautioned not to leave their premises open to prowlers. They have been operating further up the coast, in Curry.

Milt Foster hasn't been feeling so pert—not an overdose of turkey hash, we hope.
