

Mr. and Mrs. Harvey Swinney were presented their Silver Star certificates and Silver Star pins in recognition of the twenty five years they have been members. They joined the Deer Creek Grange in Josephine County in 1930 and transferred their mem-

bership here when they moved to this area. A petition was circulated for signatures to have put up to voters in November the Federal plan of re-apportionment for the state, that is, have one Senator for each county in the state leg-

islature and elect the members for the House of Representatives on a population basis, as is done in Congress. The State Grange is also bringing out another petition to amend the constitution so that a Lieutenant Governor would be elected at the same

time as we elect a governor. To conclude the evening, Leslie Woodriff showed slides of many of the beautiful flowers he is propagating in his greenhouses some of which could cause a revolution. Nowhere else in the world has the individual been given such a free rein to his initiative and ambition as in the United States.

DICTIONARY IS ADDED —
Through the efforts of the Harbor Community Club a new Webster's Unabridged Dictionary and stand has been made available at the Public Library. Frank Pallady made the stand, which is finished beautifully to harmonize with the interior finish of the building. The book will, of course, be only for reference purposes at the location. There has already been one inquiry from a potential borrower who wished to take it home.

POLITICAL ADVERTISING —
Those contemplating political advertising in the future should consult the laws in regard thereto, a feature of which that such advertising, in newspapers, must be paid for in advance. The statutes also require several signatures to each ad with the address of responsible parties.

Before storing away your winter woollens, they should be thoroughly cleaned and aired, according to a release from OSC. Moths love soiled or linted clothing. The bulletin states food preserver bags should be considered for containers as well as regular clothing storage bags.

JOURNALISTS ARE NEEDED
More people are needed in the newspaper field than are available, according to a report from the Oregon Newspaper Association. The situation is so acute that several TV programs are scheduled telling of the advantages of a journalism career.

CORRECTION —
In last weeks story on the Brookings Council meeting, the reporter inadvertently wrote the cost on the sewers in area two would run the property owner 24 cents a running foot, when obviously the figure should have read 24 cents per square foot. The average property owner will pay about \$300 for the service.
