

Alaskan Movie Slated Here

The motion picture, "Alaska" will be shown in the Brookings high school auditorium on Tuesday August 1, under the sponsorship of the Brookings police department. The show will start both nights at 8 p.m.

"Alaska," is a two-hour color-sound picture of America's wonderland filmed partly by Clyde E. Langley, who will show the picture under contract with the sponsors.

The picture includes breathtaking scenes of America's last frontier—Alaska. It required more than seven years for filming and was released in 1952.

Among the spectacles is the great Lake George break-up showing the only self-filling and self-emptying lake in the world. The lake, called the eighth Wonder of the world, is 15 miles long, five miles wide and the depth ranges from 200 to 300 feet.

Also in the picture are shots of the largest carnivorous animal in the world, the kodiak bear, 15 feet from tip to tip; a bull moose and many shots of sports, fishing, caribou, the Alaskan mountain goat, dog sled transportation, and the valley of Ten Thousand Smokes.
