

**STREAM CLOSURE**

Again, this coming November, the voters of Oregon will be asked to vote whether or not an Oregon stream will be closed to all com-

mercial salmon fishing. This time it's the Coquille River, a "Save Salmon" group reportedly having obtained the required number of signatures to refer their scheme to the voters.

THE VALUE of a product is not in the label itself but in its significance. There is invisible quality in every label bearing the name of this pharmacy. Frequently, your doctor prescribes some U.S.P. (United States Pharmacopoeia) or N.F. (National Formulary) drug without specifying the manufacturer. On all such occasions, we use the very best standard brand. When you bring your prescriptions to us, you are assured of fresh, pure ingredients of the highest quality and competent, accurate compounding.

**CHICO CHICO TRAIN.** The above pictorial proof is by way of refuting the Curry County Reporter of Gold Beach, which claimed by an article and pictures in last week's Reporter that a toy train "was the first and only train" ever in Curry County. That may be true in Northern Curry county, but trains became obsolete in progressive Southern Curry 31 years ago. According to Elmer Bankus the train stopped running here in 1925. It used to go to Smith River, and up the Chetco. The railroad hauled out some 350,000,000 feet of timber.

It doesn't cost a cent to  
 Take a Ford Test Drive...  
 and you may save hundreds!

**Would you trade 20 minutes of your time for a saving of hundreds?**

Why put off the fun of a Ford Test Drive for a single day? As you know, it puts you under absolutely no obligation. And it may save you literally hundreds of dollars—we'll get to that a little further on.

By a Test Drive we mean more than a once-around-the-block "spin."

We want you to test the power that rocketed Ford to a 500-mile stock car record at Indianapolis... the GO that won the grand prize at NASCAR's Daytona Championships. We want you to feel how this Ford *scat* pays off in your kind of driving: in traffic, passing on the highway, getting going at traffic lights. We'll put either a Ford Six or a mighty V-8 with up to 225 h.p. at your disposal.

We want you to drive and listen—drive and feel.

That fine-car quiet results from sound insulation under the hood, under the roof, in door and body panels—the most insulation in any car at

anywhere near Ford's low price.

Some other things that contribute to that smooth, silent, luxury-car ride are things which Ford's leading competitor certainly can't boast: Ball-Joint suspension with wide base control arms for better steering, more stabilized wheel alignment... shock absorbers that are mounted to the frame rather than the body.

"Sure," you'll say as you drive along the road. "Feels pretty good—but after all, this car is new."

Well sir, when you come in from your drive we'll show you why Ford will stay like new for a long, long time.

We'll show you how Ford has five cross-members (including a "K" member) in its frame. Ford's leading competitor only has two. We'll show you the deep-block Y-like engine design which enables Ford engines to take it.

Now—what you've been waiting for. How can you save hundreds of dollars by taking a Ford Test Drive?

Simply by proving to yourself that there really is a fine car in the low-price field.

You see, the reason a Ford does not cost hundreds of dollars more than it does, is Ford's huge production and the huge volume which we Ford Dealers sell.

There are many cases where "medium-priced" cars claim to be priced within a few hundred dollars of Ford. Remember, however, these prices are usually arrived at by comparing their lowest-priced models—stripped—with Ford's most expensive models that include all of the comforts of driving.

But enough of this talk. Come in. And you do the driving and the talking. Bring the family, too.
