Today you can have what other cars may not have for years

JUST BETWEEN US—don't you get a kick out of keeping a step ahead of the other fellow—especially when it comes to cars? So wouldn't you find it fun to boss the newest thing in motordom—a car with the greatest advance in transmissions since the gearshift left the floor? And wouldn't you like to have all this at a price that is right—and when the weather is right—and right when your car is at its top worth? Well, sir, we've got that kind of situation for you—now. Because this very day you can step into a 1956 Buick with Variable Pitch Dynaflo* and drive away with a transmission so modern, so responsive, so smooth that you may not find its like in other cars for years to come. You can have the thrill of split-second action from the merest nudge of the pedal—and with

the good-news gas savings this economy range brings. You can have the safety-surge of power that comes from pushing down on the pedal and switching the pitch. All with the wallop of Buick's 322-cubic-inch V8 engine. All with the new luxury of a ride that's built on 4 brawny coil springs for buoyant levelness. A ride with new steering ease and sweeter handling. Best of all, you can make the buy of a lifetime. For today's low prices have helped move Buick into America's best-selling 3 more firmly than ever. That means we can come to terms on the trade-in value of your car in a way that's bound to tickle you pink. Why not stop in and take us up on that—today? *New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.
