Mercury's new Turnpike Cruiser with its low-profile roof introduces an entirely new concept of motoring enjoyment through such exclusive features as the industry's first power-operated, retractable rear window and unique roof-level fresh air intakes on each side of the windshield—both part of a remarkable new ventilation system. A skylight, dual-curve windshield wraps upward as well as around for extra light and vision. To provide a better highway illumination pattern, the Turnpike Cruiser has "Quadri-Beam" headlamps with dual 5¾ inch headlamps placed side-by-side under wide hoods on each front fender. The Turnpike Cruiser series has been added to Mercury's Montclair, Monterey and Station Wagon series.
