**SEAMAN DENSON IS HONOR MAN OF HIS COMPANY**  
 Trueman G. Denson, seaman apprentice, USN, son of Mr. and Mrs. Dewey E. Denson of Gold Beach, Oregon graduated November 17 as honor man of his Re-

crut. Training Company at the Naval Training Center, San Diego California.  
 Before entering the service, Denson graduated from Union high school and was employed by the Evans Plywood Co.

**GOLD BEACH MAN IN LANDING EXERCISE**  
 Pvt. Terry G. Price, son of Mr. and Mrs. Stan C. Price of Route 1, Box 171, Gold Beach, Oregon participated in a major amphibious landing exercise (AGLEX-57G) during November 28 - December 6 at Camp Pendleton, California.

Highlight of "AGLEX" was the first use of large seaplanes by combat forces in regular training maneuvers. The seaplanes, known as the R3Y, loads combat troops and equipment from the bow.  
 It was used to transport Leaden Division's 5th Regiment in a raid and destruction mission against "enemy" installations on the Salton Sea, located in the Imperial Valley near Brawley, California.

The gift with the three-way return—to the recipient, to the community, to the nation—is the U. S. Savings Bond.

## Winged Performance and a Floating Ride make The Big M the road-hungriest car ever built

**BIGGEST SIZE INCREASE IN THE INDUSTRY**—Mercury is now over 17½ feet long, more than 6½ feet wide. Wheelbase is a big 122 inches. Inside there are inches more headroom, leg room—as much shoulder room, for example, as in many of the most expensive cars.

### 3-WAY POWER CHOICE

**New 290-hp Turnpike Cruiser V-8**—Wait till you feel its silk-and-dynamite performance! Optional on all Montelairs and Montereys.

**New 255-hp Safety-Surge V-8 with Power-Booster Fan**—A Mercury "first" in the Montclair Series. The engine fan coasts when not needed for cooling. You save horsepower other cars waste, enjoy a far quieter ride.

**New 255-hp Safety-Surge V-8**—Dream-car performance in the Monterey Series—Mercury's lowest priced line! Features another Mercury "first" which you get at no extra cost on all big M engines for '57—a Thermomatic Carburetor. It automatically controls the temperature of the air the engine breathes—helps keep it uniform summer and winter. Engine starting is easier, usable power and economy are increased.

### YEAR'S MOST IMPORTANT RIDE IMPROVEMENTS

**Exclusive Full-Cushion Shock Absorbers**—One of Mercury's great Floating Ride features. The first shock absorbers in the industry to give such amazing bump-smothering control on rough roads without sacrificing a soft, satin-smooth ride on average roads.

**New Swept-back Ball-Joint Front Suspension**—Mercury introduces a new improved version of its famous suspension system. Because of the new swept-back design, the front wheels are now, in effect, pulled gently over bumps, rather than pushed into them.

**New balanced weight distribution** greatly reduces nose dipping on sudden stops and lurching on fast starts.

**New road-hugging center of gravity**—Everything is lower. Car height, passenger compartment, frame, and rear axle. You enjoy an amazing sense of "nailed-down" stability on curves.

You've got to feel Mercury's new Floating Ride to believe it. We invite you to do just that, today, at our showroom.

STRAIGHT OUT OF TOMORROW **MERCURY for '57** with DREAM-CAR DESIGN

## DUNNING MOTORS

Highway 101 --:-- Brookings, Oregon
