**Fashion Does A Backward Glance**

ALL EYES will be focused on the exciting new bare backed fashions that are slated to be seen from twilight to dawn this season. The problem of underpinnings posed by these new fashions, has been solved by Hollywood V-ette's new backless brassier in nylon alencon lace and satin. Velvety non-slip elastic is used for the adjustable shoulder straps that plunge to the waist in back, and are held securely by a narrow elastic belt that fastens around the natural waistline.
