NEAR DISASTER AS BOAT SWAMPS

Three men came close to drowning here Saturday as their 16 foot boat was swamped as they were coming in from checking their crab pots.

The men, Howard and Earl Vining, and Dick Bliss are all experienced boatsmen but one "monstrous" breaker just threw them for a loss about 100 yards off the mouth of the Chetco.

The boat swamping was seen by Mrs. Tom McKenzie, who was in the Red-E-Mix office. She quickly called Police Chief Bud Cross, who got John Hewitt, local boat operator, and the two men helped the Vinings, and Bliss in, and helped with the salvage of the boat and motor. They lost most of their clothes, and 8 or 9 dozen crabs.

Other than a "bad scare" the men were none the worse for wear. They had rented the boat from Hewitt. They have been getting good crab catches frequently out in the ocean.

NEW VFW POST COMMANDER TAKES OFFICE WEDNESDAY

Ferdie Stienmetz, took over as commander of the VFW post Wednesday night at the regular meeting of the group.

Mrs. Dorothy Harvey will take over the presidency of the Auxiliary.

A new age of automobiles begins with this car

Touch a button—in less than a minute the steel top disappears magically into the trunk—and you're in a supremely elegant convertible. It's two cars in one!

Here Today! The FORD SKYLINER—world's only Hide-Away hardtop

Once in a long, long while a car comes along that people remember and talk about for years after its introduction.

The first model "A" Ford was such a car...

The first Ford V-8 was such a car...

The first Ford Thunderbird was such a car.

Today Ford Division is proud to announce still another car that many say is destined to become the most famous Ford of all: The Skyliner—world's only hide-away hardtop.

If you plan to buy a new Ford, or already own one, the fact that Ford created this car is important to you. For all the exhaustive research, planning and testing that went into the Skyliner is evidence of the engineering skill you get in every Ford model.

The Ford SKYLINER, the only all-steel hide-away hardtop, is a car for history.

This is an old dream of Detroit, a dream of two generations of motorists.

And today Ford has made that dream come true—in steel.

But the story behind this dream is a story of men who refused to accept "no" for an answer. In the Ford tradition they kept striving toward the goal long after others had given up the chase.

To understand this Ford spirit you must go back to 1908. That was the year

when many Detroiters smiled smugly as Henry Ford announced, "We will build a motor car for the great multitude . . . so low in price that no man making a good salary will be unable to own one."

And they did.

Today, nearly a half century later, Ford continues to cause the "experts" to change their tune. When you see this all-steel hardtop that retracts into a convertible, you'll be seeing a car that many said would never be mass-produced.

But Ford did it.

It was December 1956—after eight years of research, planning, experimenting and testing—when Ford unveiled this masterpiece . . . unveiled it amid all the pomp and splendor of the New York Automobile Show.

And now this history-making car, this prototype of a whole future generation of cars, is ready for your own personal inspection in the showrooms of many Ford Dealers.

Plan to see it soon. And ask your Dealer to show you the exciting advances in all models of the new Ford line for '57.

It's the newest new kind of **Ford**

1. It's an all-steel hardtop with sleek Victoria styling . . . 2. Touch a button and presto! It's a sun-loving convertible!
