Chevy's come up with the newest, sweetest, smoothest automatic drive—Turboglide. It's the first and only triple-turbine transmission!

Turboglide is something really new and different in automatic drives. In the first place, there's only one forward-speed position on the control panel. There's no "Low" needed.

Turboglide handles everything with the oil-smooth action of triple turbines. You travel from a standstill to top cruising speeds with never a lurch or lag to mar your motion.

When you see a steep downhill stretch ahead, you set the selector at "GR" (Grade Retarder) and Turboglide helps slow you down. Try Chevy's new, nothing-like-it automatic drive. It's optional at extra cost—and worth it.

No fees are required for assistance in applying for state veterans' farm and home loan. Ernest J. Smith, Loan manager of the Oregon Department of Veteran Affairs said today.

**Letter to Editor**

Dear Sir:

Saturday at the Azalea Festival my husband and I had to stand up to see the enjoyable program at the Park because of adults standing close to the low stage, several people missed the program that for various reasons didn't care to stand up to see it.

A higher stage or an official with authority to make adults especially close to the stage set down would help.

Peoples backsides aren't necessarily attractive to look at.

I have attended outdoor Church services in other Parks and there was always a cute little basket on either side of the path, to receive any offering one cared to give, which I think is practical.

I thought all churches could use money; maybe Brookings is the exception.

We carry our own picnic lunch with us, and consider the day a delightful outing.
