

BROOKINGS CHARTER BOAT S.S. Castle Rock Jr. is run by teacher Art Guthrie. He keeps boat at Snug Harbor, and goes out just about any day that the weather looks good. He reports a good salmon catch is usually thrown in with the Charter, which only runs about \$8 for a half day out. The boat is equipped with all the fishing gear, etc.

LOG PILE AT THE BROOKINGS PLYWOOD POND almost eliminates the pond entirely. Just about two years ago this pile of logs would have looked terrific to the Plywood, because logs were very hard to come by. Even now, however, the pond filled like this keeps at least one worry off the shoulders of the Plywooders.

THE PIT CREW at the Micro Midget races held every other Saturday night at the Chetco Wrangler Rodeo Grounds in Brookings. The little Midgets scoot around the track with high speed, and are very interesting to watch.

THE MAN AT THE RIGHT IS NONE OTHER THAN Speed Funari (in person). And how many people around town realize that Speed was once a band leader. This photo was taken in the Hawaiian Islands, where Speed conducted his band, before coming to Brookings to cut down trees. Speed is being called on by the Chamber of Commerce in Brookings to conduct a membership drive, and this photo is being dug out to prove to the people that he can conduct something.

PICTURED ABOVE IS Virginia Moorman, Eugene, and James C. "Dinty" Moore, of Brookings. The two were united in marriage on Saturday, August 3, in a ceremony performed in Azalea Park, by Rev. Owen Turley, of Harbor. The bride was formerly the Lane County Extension advisor, and will teach in the elementary school here this year. Moore is the manager of the Del-Cur Supply Coop.

Complete Automatic Insect Control

VAPO-SWAT

VAPO-SWAT
Combined with
VAPO-TAB
ENDS INSECT MENACE
FOREVER!

\$15.95 ea.
Refills \$5.95 ea.
