**SCHOOL RE-ORGANIZATION PETITIONS SENT BY GRANGE**

Fifteen petitions bearing nearly three hundred names were taken to the county clerks office the first of the week by Joe Zumpfe, Master of the Chetco Grange.

The petitions were circulated by members of the Chetco Grange in co-operation with the State Grange in an effort for the people of the state to have a chance to vote on the controversial school re-organization law passed by the state legislature the first of this year.

At this time the Grange is not actively for or against the law, but as it takes much of the control out of the local level and places it on the county and state level, it should be studied and the people of the state allowed to vote whether they want it that way or not. If there are enough signatures on the petitions to bring it to a vote, it will be on the ballot in the 1958 election.
