

SCHOOL ELECTION

The annual school election was held in Willamina Monday evening when two directors were elected. There was considerable interest shown in the election and voting was very keen. On account of K. E. Shetterly and

A. C. Thurber having resigned, it made the election of two directors necessary. Wm. W. Harcombe and Paul Fundman were elected directors and J. F. Walton was re-elected school clerk by a unanimous vote. R. H. Yates is the one director who carried over.

Wm. W. Harcombe and family

attended the Rose Show in Portland last week.

Paul Fundman and family were Mc Minnville business visitors Saturday.

Carl Boeche and family of Molalla were Sunday visitors at the Rex Bissell home. Mrs. Bissell is a daughter of Mr. and

CORTICELLI DRESS SILKS

In the Corticelli line you find Silks and Satins for every silken wish. And a visit to our silk counter will show you how easily your silken wish may be gratified, for today you can buy soft beautiful Crepes, crisp Taffetas or the new printed silks at very little more than the price you would pay for any good dress material.

And it seems to us that we have never before been able to show you as many pretty trimmings and over-laces to go with these dress silks as we are showing at present.

Come in and let us show you some of the Corticelli silks in Crepe de Chine, Taffeta, Satin and Paisley silk.

We feel sure they will please you both as to quality and price.

And don't forget the Butterick pattern with the Deltor which very often means the difference between success and failure in your dress making.

CORTICELLI SILK HOSE

These beautiful full fashioned silk hose are the kind that wear and give pleasure while you are wearing them.

While these hose cost a little more than some others we think the extra wear and satisfaction they will give you will make them really save you money.

Special on Men's Suits

We have separated from our stock of Men's suits twelve suit in stock numbers that we will not stock again.

These suits are well known makes and in good style, the run in size from 36 to 39 both in young men's models and the more conservative styles.

There were a few of these suits sold regularly for \$18.50 but the most of them were \$22.50 and \$25.00 suits. You can come and take your pick of these suits for \$15.00.

GRAND RONDE'S NEWSPAPER

The Grand Ronde News made its appearance with its first issue on Tuesday of this week. It was printed in the Times office and contains four pages the same size as those of the Times. It contains a brief history of the origin of Grand Ronde, and from 1855 up to date, in addition to some news, but as it was out on very short notice this time, there was but little chance for getting news. It will be issued twice a month to start with, but it is hoped to turn it into a weekly paper within a month or so.

GRAND RONDE BALL TEAM

Grand Ronde is looking forward to a very lively game of ball at Toledo on July 1st.

The local towns seem to desire to stay shy of Grand Ronde's ball team. They challenged Sheridan for a game, but as yet haven't had any reply as to whether they will play or not. The Grand Ronde team having played eight games this year and only losing two certainly speaks well for them. Here is hoping they can hold this record throughout the season.

NEW GRAND RONDE GETS

ROAD IMPROVEMENT

The road condition was taken up with the Polk County Court some little time ago in regard to the road from Valley Junction by the way of New Grand Ronde to Grand Ronde Agency and the court agreed to go fifty-fifty with the people in that community. The necessary amount was raised by the local people and the court notified that they would meet the court's offer so the work has been commenced and the rock is mostly on the road at this time but some of it hasn't been spread as yet. This will make a vast difference on this piece of road as the traffic was so heavy over it last winter that it got very bad; the most of it had been rocked some years ago but the rock had cut through and worn out most of the way.

Novel Motor Canoe.

It is reported that a western man has built a most unusual water craft in the form of a motor canoe. He took an ordinary canoe and placed in the bow a detachable motorboat arrangement which pulls the canoe forward when the motor is operating reversely. At the stern of the canoe he rigged up an airplane propeller, which is driven by a separate engine. In order to insure safety, pontoons were fastened on either side of the craft, and the steering gear of both motors was placed within easy reach near the center of the canoe.

DUNDAS-HUMPHREYS NUPTIAL

Elva Dundas, the only daughter and youngest child of Alfred Dundas, and Dr. Karl James Humphreys, of Riverside California, will be united in marriage on the 30th of June, at the above address. Miss Dundas was raised in Willamina and is well known by all the older residents and her many friends here wish her a long and happy life.

LIVED AFTER BEING SCALPED

Two Men, at Least, Are Known to Have Recovered After Their Hair Had Been "Lifted."

In August, 1867, near Plum Creek station, Nebraska, on the then building Union Pacific, two hundred and thirty miles from Omaha, the Cheyennes wrecked a hand-car carrying William Thompson, head lineman, and his crew of five, says Adventure Magazine. Thompson was shot through the right arm, knocked down with a rifle-butt, stabbed in the neck, and while still conscious was scalped.

"I felt as if the whole top of my head was taken right off," he afterward related.

When the Indian galloped away the scalp slipped from his belt, and Thompson crawled and got it. He arrived at Willow Island, fifteen miles west, with the scalp in his hand, and put it into a pail of water to keep it moist. It was nine inches long and four inches wide, and "looked like a drowned rat."

At Omaha the doctors replaced it upon his head and gave him hopes, but it did not stick. He took it home with him to England, but finally sent it back to Dr. R. C. Moore of Omaha; and it was placed on exhibition in a jar of alcohol in the Omaha Public Library museum.

In April, 1868, two U. P. freight conductors, Tom Cahoon and William Edmundson, were fishing in Lodge Pole creek, a mile and a half out of Sidney, Nebraska.

The Sioux cut them off. Cahoon was shot down and scalped. He recovered and after completion of the road in 1869 ran as passenger conductor out of Ogden, Utah. He lived in Ogden for some years. A street in that town was named for him. He wore his hat "well to the back of his head" by reason of a curious "bald spot."—Exchange.
