DODGE REPORT IN CHRISTIAN SCIENCE LITIGATION FILED

Judge, Sitting as Master, Approves and Confirms Position of J. V. Dittmore.

Boston, Mass.—After over four years of litigation in the Christian Science Church, ex-Federal Judge Dodge of Boston, sitting as Master under appointment of the Supreme Judicial Court of Massachusetts, has filed his final report on the evidence. The plaintiff, John V. Dittmore, the senior Director of the Church, whose service antedates the death of Mrs. Mary Baker Eddy, and who his associates sought to remove from office, seems to have been completely justified in his contentions that undesirable and unwholesome conditions have existed in the administration of the church government.

Judge Dodge finds from the evidence, which includes testimony by the majority Directors themselves, that Mr. Dittmore's dismissal was for the purpose of doing away with opposition to the wishes of the majority and also because Mr. Dittmore had sought to establish a standard of propriety and conduct higher than desired by his associates. It is also found that a principal reason for the hostility to Mr. Dittmore was because of his rebuke to his associates on numerous occasions when offensive language was used and offensive jests made at meetings of the governing body of the church. Judge Dodge holds that Mr. Dittmore is still legally a Director and that the effort to remove him and appoint a successor more sympathetic with the policy of the board is legally null and void.

In regard to the illegality of Mr. Dittmore's dismissal, Judge Dodge says that no Director could fairly be supposed to have accepted his position upon the understanding that he was subject to instant, arbitrary dismissal whenever a majority of his associates might find it expedient. The Master finds that the vote attempting to dismiss Mr. Dittmore "was only the formal adoption of a conclusion previously agreed on outside the meeting" and that it was for his associates, then accusing him and at the same time proposing to also act as his judges, to afford him "such opportunity to be heard in his own defense upon the charges made as would satisfy the requirements of natural justice." He also finds that the complaints against Mr. Dittmore were not founded upon first hand knowledge and "were inadequate ground for any but a purely arbitrary dismissal." The Judge also finds that there was never any question as to Mr. Dittmore's sincerity in maintaining his position and that nothing said or done by him in maintaining his opinions could have constituted adequate ground for dismissing him, "unless the majority's power to dismiss could lawfully have been used by it for the sole purpose of stifling any opposition in the Board to their wishes."

The Master declares that Directors Dickey, Neal, Merritt and Rathvon were animated by personal hostility toward Mr. Dittmore and that they had long planned among themselves to get rid of him. One of the occasions when bad feeling was engendered was when Dittmore refused to join Dickey, Neal, and Merritt in attending a play in New York which Dittmore considered objectionable and which had as the leading player a person of notorious reputation. On this occasion Director Merritt testified that he urged Dittmore to accompany them and said: "Come on with us. You are not so much better than the rest of us."

Judge Dodge also finds from the evidence that "There were occasions in 1917, 1918 and 1919 upon which, at meetings of the Directors, the plaintiff (Dittmore) expressed disapproval of utterances by Dickey of a kind tolerable only when men only, and men not disposed to be scrupulous in such matters, are the hearers—thereby arousing resentment on Dickey's part, and sometimes on the part of Merritt and Rathvon." The testimony regarding eight or nine such instances was taken by Judge Dodge in private. In regard to all of these occurrences Judge Dodge finds from the testimony of Mr. Dittmore and others, including the cross-examination of the defendant.

"THE THIRD ALARM"

Don't miss this drama of terrific emotion that will shake every beholder to the depth of the soul! Greater than the passion play in its human appeal—greater than a dozen dramas in its stupendous thrills and Situations.

Grand Theatre, Sheridan-

Mon. and Tues., June 25, 26

Directors Dickey, Neal, Merritt and Rathvon themselves, that Mr. Dittmore's account of them was substantially true and that his "repeated insistence upon a standard of propriety in language or conduct stricter than that accepted by his associates materially augmented their hostility and dislike."

Judge Dodge concludes that Dittmore's co-Directors were "incapable, on March 17, 1919, of impartial judicial consideration of accusations against him, especially of accusations framed by themselves, had they ever undertaken any such consideration."

At the present time Christian Scientists throughout the world are deeply interested in the facts brought out by the Dodge report which Mr. Dittmore and others are distributing in large quantities among the membership.

The progressive element in the Church seems to be gaining much strength. It urges a more consistent and practical interpretation of the teachings of Mrs. Eddy by those in authority and a more liberal administration of the church government. Next to a change in the official personnel in Boston, under a definite rule of rotation in office, the greatest need of the Church seems to be for the encouragement of greater local church self-government and democracy according to the spirit as well as the letter of the Church Manual, and a minimizing rather than an encouragement of the greater centralization of authority in the self-perpetuating Board of Directors and their appointees in Boston.

WROUGHT WONDERS IN STONE

Work of Architects of the Twelfth Century Stand as a Challenge to the World.

The most laboriously wrought stone carving in the world, the temple of Chenna Kesava, at Belur, India, was built in the Twelfth century to celebrate the conversion to Vishnuism of a Jain ruler. Fergusson says of this particular temple: "The amount of labor which each particular facet of this porch displays is such as never was bestowed on any surface of equal extent in any building in the world."

Another masterpiece of sculptured stone, at Hullabid, India, ten miles from Belur, is greatly ruined now, and many of its gems have been removed to the museum at Bangalore. When intact it was the finest specimen of Indian art in existence. This column is one of the most marvelous exhibitions of human labor to be found even in the patient East—far surpasses anything in Gothic art. The effects are said to be just what the medieval architects were aiming at, but which they never attained so perfectly as was done at Hullabid. Fergusson further says, placing the Hullabid temple and the Parthenon in Athens as the two extremes of architecture: "It would be possible to arrange all the buildings of the world between these two extremes, as they tended toward the severe intellectual purity of the one or the playful, exuberant fancy of the other; but perfection, if it existed, would be somewhere near the mean."
