All Electric Radio

The all Electric Radio has made changes in our home affairs and home life for the better because of the wide variety of entertainment and instruction it affords. The piano and phonograph, to a considerable degree, have been replaced with musical entertainment quite superior to that of former days.

It is not unusual to hear groups of people talking about "Amos and Andy", "Goshen Center" and "Memory Lane," which are on the air every week.

The Electric radio is not a luxury. It is a home necessity. Weather reports, crop reports, the news of the day, high class amusements, lectures, sermons, entertainments, sporting events; all yours without cost with the Majestic, "The Monarch of the Air."

Six Models From Which to Select

You should see and hear them before you make a decision to buy a set. Terms if desired. You may have a demonstration in your home
