HILLCREST NEWS ITEMS

By J. A. HART

Last week Hillcrest was conspicuous by its absence.

We had planned a trip, but ill health would not permit. When you are old and sick there's no place like home.

Ruth and Louis Rydell were home over the week end to visit their mother here. Louis is now stationed in Eugene, and came up with his sister. Armistice day gave Ruth time for the long trip, as she is teaching near Roseburg.

Mrs. Anderson reports getting a letter from her son Herbert, in Chile, telling how much he enjoys reading The Times there. He is a mining engineer and has been working in a large copper mine for several years.

Mrs. Vaughn of Portland, a niece of Mrs. Fouts, came up Armistice day to get her little daughter, Joan, who has been visiting at the Fouts home for some time.

Armistice day was properly celebrated here by the opening of the mills after a ten day shut down on account of the storm.

Charlie McBee sold three cows the last of the week to Victor Werth, who has a farm near Cloverdale. He says it was either sell stock or buy hay, and he chose the lesser evil.

Ted Gillespie continued to make his regular trips in spite of stormy weather, returning late in the evening. We, for one, greatly appreciate this service, as we have no conveyance and no way of getting to town.

We were treated to a pleasant surprise Wednesday last week when Bert Crans dropped in us unannounced. He is a brother-in-law in the employ of the state highway at Vancouver, Wn., and was returning from a business trip to Roselodge.

A letter from the Davenports announced their safe arrival home, and stated that the frost had done considerable damage in Coos county. This is unusual, as there is seldom snow or frost, and the roses often bloom all winter in the open.

The number of accidents on the highway recently should be a warning to all to drive carefully and take no unnecessary chances.

Miss Ethel Rydell was a Portland business visitor the last of the week.

An item that escaped us was the recent removal of the Seyern family to a place near Monmouth and the coming of a new family from Montana—Mr. Sargent, if we get it right. They have located on the Pete Demas place, having obtained a four-year lease, and are making the dirt fly in an effort to improve the place and make a real home there.

Mrs. Hart has a bunch of about 20 rabbits that arrived just before the storm. They are frisky and fine and not

one has been lost in spite of the cold weather.

The Milican family have moved to the Pete Nyberg place. They are a large family and it will be better for them, as they will have pasture for stock and land to raise hay and garden on. He works in the Klees mill here.
