

PALACE HOUSES THOUSANDS

Some 3,000 of the 32,000 people of Split, one of the seaports of Yugoslavia, live within the walls of the Diocletian palace, which covers nearly nine acres and is one of the largest private residences ever built. Travelers who visit Split spend most of their time outdoors, so they can enjoy the brilliant sunshine.

IT WORKED FOR ME

Women should take only liquid laxatives

MORE people could feel fine, be fit and regular, if they would only follow the rule of doctors and hospitals in relieving constipation.

Never take any laxative that is harsh in action. Or one, the dose of which can't be exactly measured. Doctors know the danger if this rule is violated. They use liquid laxatives, and keep reducing the dose until the bowels need no help at all.

Reduced dosage is the secret of aiding Nature in restoring regularity. You must use a little less laxative each time, and that's why it should be a liquid like Syrup Pepsin.

Ask your druggist for a bottle of Dr. Caldwell's Syrup Pepsin, and if it doesn't give you absolute relief, if it isn't a joy and comfort in the way it overcomes biliousness due to constipation, your money back.

Beware Coughs, from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

Roasting the Thanksgiving Turkey

FIRST, select a plump, well-fattened turkey. Either a young or an old turkey can be made excellent eating, but you must know which you have, for it makes a difference in the way you cook it. Allow from one-half to three-quarters of a pound in the weight of the turkey as you buy it for each person to be served—remembering that in the larger kinds you will get more meat in that proportion to bone. With a 15-pound turkey, for instance, you can get 20 very generous servings.

The dealer will usually draw the turkey for you, but certain things have to be looked out for at home. Cut off the oil sac, take out the windpipe and lungs, pull out any pin feathers and singe off hairs. Do this quickly so as not to darken or scorch the skin. Wipe the body cavity with a soft cloth wrung out of cold water. Scrub the outside with a wet cloth and soda or corn meal. Rinse off quickly and wipe the bird dry inside and outside. Never let a turkey or any other poultry soak in water. You lose flavor and food value.

Rub the inside with salt before putting in the stuffing. Slip a crusty end slice of a loaf of bread into the opening near the tail to hold in the stuffing, tuck the legs under the band of skin left for that purpose, and sew up the slit with soft white twine. After stuffing and trussing the turkey, rub the outside all over with butter, salt and pepper and pat on flour. Lay a

resting the Doneness of the Bird for the Great Feast.

Place a piece of turkey fat over the breast. Place on a rack in an open roasting pan. Do not put any water into the pan. Water in a roasting pan makes steam, and steam around a roasting turkey or any tender meat draws out the juices.

Have the oven hot (about 450° F.) when you put the turkey in. Brown it lightly for half an hour in this hot oven and after the first 15 minutes turn the bird with the breast down so it will brown all over. Then reduce the oven heat to very moderate (325° F.). To cool the oven down quickly leave the door open a few minutes. Turn the bird from time to time, basting it often with turkey fat and butter.

If the turkey is young, continue the roasting at this moderate temperature with no lid on the pan until the bird is done. Baste with pan drippings about every half hour. In turning, be careful not to break the skin. A young 10-12 pound turkey will need about three hours in the oven.

For a turkey a year or more old, after browning in the hot oven, put the cover on the roaster, and continue the cooking in the moderate oven (about 325° F.). You will probably need to allow 4½ hours for a 15-pound bird a year or more old.

To test the "doneness" run a steel skewer or a cooking fork into the thigh next to the breast. If the juice does not show a red tinge, the turkey is done. Make gravy with the giblets and drippings.

The bureau of home economics, United States Department of Agriculture, which gives the foregoing suggestions, also supplies this recipe for a savory stuffing:

2 quarts dry bread crumbs
¾ cup fat, butter
and turkey fat
1 small onion, chopped
½ cup chopped parsley
1 pint chopped celery
2 tsp. salt
1 to 2 tsp. savory seasoning
Pepper to taste

In the melted fat cook the onion, parsley and celery for a few minutes. Add the bread crumbs and seasonings and stir all together until the mixture is thoroughly heated. Pile the hot stuffing lightly into the turkey, but do not pack.

THE MESSAGE OF HAGGAI AND ZECHARIAH

LESSON TEXT—Haggai 1:2-8; 2:3, 9; Zechariah 4:6-10.

GOLDEN TEXT—I was glad when they said unto me, Let us go into the house of the Lord. Psalm 122:1.

PRIMARY TOPIC—A New House for God.

JUNIOR TOPIC—Building a House of Worship.

INTERMEDIATE AND SENIOR TOPIC—Why We Build Churches.

YOUNG PEOPLE AND ADULT TOPIC—Building Adequate Churches.

After the returned captives had settled down in the towns surrounding Jerusalem, the people were called together for the purpose of establishing the worship of the Lord God. This movement was led by Joshua the priest and Zerubbabel the governor. In view of the fact that the clearing away of the debris of the old city and temple and the erection of the new temple would take a long time, an altar was erected where sacrifices might be offered at once to God.

1. The Laying of the Foundation of the New Temple (Ezra 3:8-13).

This was an auspicious occasion and was celebrated with impressive ceremonies.

1. The priests in their official apparel (v. 10). These garments symbolized their consecration to the Lord's service.

2. The priests with trumpets (v. 10). Trumpets were used in calling the people together.

3. The Levites with cymbals (v. 10). This was according to the arrangements made by David (1 Chron. 15).

4. They sang together by course (v. 11). This means that they sang to one another responsively.

5. Mingled weeping and singing (vv. 12, 13). Some of the older men who had seen the magnificent temple of Solomon wept when they saw how far short the present foundation came of the former temple. Others were glad because of the favor of God which had brought them back.

II. The Building of the Temple Hindered (Ezra 4).

The leading adversaries were the Samaritans, a mongrel people, the offspring of the poor Jews who were left in Palestine and the foreign people who were sent into Palestine after the Jews were taken captive. The three perils which delayed the building of the temple for about fourteen years reveal the persistent methods which the enemies of God use to hinder the building program of God's people in every age.

1. An unintelligent pessimism (3: 12). Because things were not as promising as they should be, some were not disposed to go forward with a constructive program and even hindered those who possessed a hopeful outlook. Under the circumstances, a glorious beginning had been made which had promise of great things in the future.

2. Worldly compromise (4:2, 3). The adversaries said, "Let us build with you; for we seek your God." This is Satan's most common and effective method. The help of the unregenerate in forwarding the Lord's work should not be accepted by the Lord's people.

3. Open opposition by the world (4:4-24). When refused a part in the work, open opposition was resorted to.

III. Assurance of the Completion of the Second Temple (Zech. 4:6-10).

By means of the golden candlestick is represented the restoration of the Jewish nation and the fulfillment of its divine purpose. It was to be a light in the world. There were insuperable difficulties in the way of accomplishing their restoration, represented by the great mountain, but assurance was given that God by his Holy Spirit could easily accomplish their restoration. The mountain would be displaced by a plain. The two olive trees represent Zerubbabel and Joshua. The Holy Spirit was to accomplish this work through them.

IV. The Temple Finished (Ezra 6: 13-15).

Through the ministry of the prophets, Haggai and Zechariah (Ezra 5:1; Hag. 1, 2), the people were encouraged to resume the work of the building of the temple. When the temple was finished, they solemnly dedicated it to God (Ezra 6:16-22).

V. The Blessedness of Dwelling in God's House (Ps. 84:1-4).

1. The longing of the soul for God's house (vv. 1, 2).

2. The sparrow and swallow find protection in the sacred precincts of God's house (v. 3).

3. At home in God's house (v. 4). Those who have a heart for God find their chief delight in dwelling in his house.

RAINFALL VARIES FROM ZERO TO 500 INCHES ANNUALLY

Geologically the earth may be subdivided into three spheres, the outer, gaseous, atmosphere, the watery hydrosphere, and the rigid and rocky lithosphere. Water is present in varying amounts everywhere in the lower portion of the atmosphere and nearly everywhere in the outer crust of the lithosphere.

The earth's atmosphere constitutes slightly less than a millionth part of the earth's whole mass. But the rain which falls from the atmosphere every century weighs seven times as much as the air itself. Three-fourths of this rain falls back into the ocean. Even so, the work of the atmosphere amounts to pouring all the water of the oceans over the land once in 12,000 years. Nearly three-fourths of this rainfall again vaporizes. What remains flows back to the sea in rivers.

In polar regions the snowfall represents from 8 to 15 inches of water, whereas on certain southern slopes of the Himalayas the rainfall may be as much as 500 inches a year. In dry regions, such as the vast desert areas of North Africa, Central Asia, Australia, and along the coast of Peru, only a few inches of water is precipitated annually. Among the Canary Islands surrounded by water are localities that have very little rainfall for periods as long as three years in duration.

The average rainfall for the United States varies from 70 inches for the Gulf coast and Northwest Pacific coast region to 15 inches over the Great Plains and less than 10 inches in Nevada, Arizona, and southeastern California.—Dr. G. A. Thiel, University of Minnesota.

Thrice the Slaves in World as Century Ago

The world may be improving in some ways but in regards to human bondage it is growing steadily worse, according to figures gathered by Lady Simon, wife of Britain's foreign minister. There are three times as many slaves in the world today she says, as there was 100 years ago (not counting those in the United States).

Slave trading is carried on openly in most of the larger cities of Arabia and a slave market adjoins the Great Mosque of Mecca. Oddly enough, Liberia, which at one time was a refuge for escaped and liberated slaves of the United States, has nearly 800,000 slaves numbered among its 2,500,000 population. Slavery still exists in many parts of Ethiopia, many parts of China and northern Africa.

It is one of the severest tests of friendship to tell your friend his faults. So, to love a man that you cannot bear to see a stain upon him, and to speak painful truth through loving words, that is friendship.—H. W. Beecher.
