

GRAND RONDE

(By M. Petersen)

Thank you for the August Folks of Eugene, Oregon. It surely is a treasure of thought for newspaper correspondent. The McMinnville-Tillamook highway has developed into its own. Friday, Saturday and Sunday surely showed more than 3000 cars passing my place to its fullest capacity. Our beach and water resorts, with its merry-go-round at Pacific City, Tillamook Bay City, Garibaldi, Cannon Beach Seaside, Astoria Safety First is our slogan.

The E. L. Brady family of Portland are spending their vacation at Seaside. They filled up self door

clams. They feel tiptop, according to their letter to Petersen.

Mr. and Mrs. B. L. Ort of California resting at Salem, with a two-horse trailer for the use of locating a stock ranch. M. Petersen is their advisor. Mrs. Maiers and children of Sheridan called on Petersen for a small acreage. She found what she wanted; now it's up to Mr. Maier.

Wm. Williamson and Mr. Stevens are going into the filing business. Our son, Julius, his son, Ernest, wife and baby girl called Saturday from Portland. Harold Scheese, wife and baby girl of Tillamook and Mrs. Alvina LaChance of Grand Ronde visited Mrs. Petersen Sunday. A real prize baby they have.

Democracy of the world population we fought for once. Our four boys volunteered. An empty stomach

will demand democracy on the spot. Our president with a large attendant concluded the scene in 1918. Will the women of today step in their husbands' shoes and demand stopping cannibalism laying waste our beautiful world.

On the 22nd of August M. Petersen will be photographed by the assistant editor of the Telephone-Register Corporation. He wants the life history of Petersen from 1854

Roy Buckley, our son-in-law, has finished painting his house in Portland. Wonderful harvesting weather we have. A letter from Harry LaChance, quartermaster clerk at P.I., takes a month getting here. We will have two crops of Himalaya blackberries this year. Now we have a toaster and an electric clock. Our

old clock is sore 'cause the new keeps time. The old says, "I will fight."

Harry Kershaw is improving in health. His old customers keep him busy. 320 acres near Mc, \$10 per acre. 60 acres near school \$6 per acre. M. Petersen has rheumatism. Got a business letter from Mrs. Elery Townsend of Sheridan. One son, Fred, in California is doing better in health. Petersen was given a stars and stripes flag by his son. Kelly and Southard are building an alder mill at or near Dolph. Quite a lot of piling went to Portland from here. Lots of it left yet. M. Petersen is a sign painter.

Mrs. M. Petersen is still suffering with gas. A forward move of Old Grand Ronde is made by our Rev. G. Scheffold, with assistance from the sisters school at Beaverton. Pictures have been taken of old timers. Old buildings and records will be shown in the east, what was done here nearly 75 years ago, and

what has been done lately. Edgar Simmons is foreman at the Lively hop yard near Salem. He is soliciting for more hop pickers. He is a fine character of a man. M. Petersen is a Notary.

LOCAL HAPPENINGS

Mrs. Roy Rogers returned last Friday from Portland where she had spent a week with her parents, Mr. and Mrs. S. A. Thomas.

Mr. and Mrs. Harry Shipley spent the weekend at Clear Lake. Jim Shipley came home from the army camp unexpectedly after his parents had left and spent the time visiting Willamina friends, except for a few hours after his parents' return.

Mrs. M. C. Lipp of Richmond, Cal is visiting friends and relatives in Willamina.

Mr. and Mrs. Earl Brown visited in Dallas Sunday.

FOR SMALL POWER USERS

The John Deere Model "L" Tractor

When it comes to year 'round power at unusually low costs, you'll do better with a money-making John Deere Model "L" . . . the tractor designed for the small-power user. Actually, the small, powerful, gasoline-burning engine of the Model "L" burns only about 1/2 gallon of fuel per hour on most jobs.

Simple in design, easy to adjust, economical to maintain, the Model "L" has the working capacity of a 2- or 3-horse team. Because of its flexibility, short turning, easy handling, and adjustable rear-wheel tread, this tractor is especially adaptable to your row crop work. In addition, there's a complete line of integral equipment especially designed for the Model "L". Come in today and learn how little it will cost for you to own a complete John Deere power-farming outfit.
