Editorial Comment

Ten per cent of all income should be invested regularly in war bonds and stamps.

That is the word of the U. S. Treasury Department. It is the obligation of every good American whose name is on a payroll or who may have any other source of income. It is little enough to pay for continued "life, liberty and the pursuit of happiness." It is a cheap price for protection of home and family, and for security of the other 90 per cent of income.

Yes, it IS a bargain. When victory, for which this money is being spent, is finally achieved the savings now invested in war bonds and stamps will be returned WITH INTEREST. Moreover, this victory loan will become an effective curb on inflation and a handy backlog when the inevitable day of post-war adjustment is at hand.

The investment of just 10 per cent of income is another good answer to the question: "What can I do to help in the war effort?"

What happens if the response is not immediate and generous? The war bills MUST be paid, so the only acceptable alternative is now and more severe taxes. The voluntary war loan plan is much more the American way of doing a job that must be done.

If investing just 10 per cent of income in America's future seems too much of a sacrifice, how about the sacrifice of those gallant defenders of Wake Island, Bataan and Corregidor? Consider soberly the sacrifice of those who man America's ships on the seven seas and planes over Burma and New Guinea.

OREGON'S quota in this new and greater war bond program is \$5,610,500. Of this sum Yamhill County citizens are expected to loan \$102,700. Oregon has always been a leader in any effort in which the nation's safety is at stake; Yamhill County, too, has never failed in such an emergency.

This is OUR fight — we sink or swim together. Every single citizen must recognize his direct and inescapable involvement in this greatest struggle for freedom and our way of life.
