SNAPPY FACTS ABOUT RUBBER

Low costs prevailing, post-war world consumption of natural and synthetic rubber may total 2,000,000 tons a year, is the prediction made recently by John L. Collyer, president of The B. F. Goodrich Co. This would be nearly twice as much as ever consumed in a record year to date.

Some 32 million pounds of rubber will be needed by the Army Signal Corps this year for insulating W-110-B wire used in maintaining direct communications. An additional 4 million pounds will be required for friction and splicing tape. Just two of the many rubber-using items of this Army branch.

Even a Friend Might Not Appreciate Such Greeting

Several years ago George Ade was visiting London and, feeling lonesome, suddenly spotted a man he thought he knew back home. He rushed up eagerly and gave the fellow a resounding whack on the back, causing his glasses to fly off, his hat to sail into the air and his armload of bundles to fall into the street.

Then he discovered his mistake and apologized profusely to the stranger, explaining that he thought the man to be an old friend.

"Oh, that's quite all right, old chap," said the Englishman, "but—er—tell me, does your friend care for this sort of thing?"

ON THE HOME FRONT with RUTH WYETH SPEARS

WHEN you have made one rag rug you will find yourself a member of an enthusiastic clan; counting the days until you fall heir to a dress of a particular color that fits into the design that is developing under your fingers. These enthusiasts also bleach materials to tone them down; they brighten others with dye; they antique some with tea and they have a wonderful time.

The sketch gives all the directions you will need to copy this fascinating braided rag rug with a flower medallion in the center. Or you may make two of the medallions, sew them together and add a braided handle for a knitting bag. Braid the fabric strips tightly and keep the work flat while you sew the circles for the roses and the loops for leaves; then sew them together. Use carpet thread double for this and for sewing the braided rows around the edge of the rug.

NOTE—This rug design is from BOOK 8 which contains 31 other things to make from scraps of fabric and other odds and ends. Price of book is 15 cents. Address:
