

Royalty Does Its Stuff

King Gustav of Sweden still enjoys his favorite game, tennis. He is shown (left) in action in the royal tennis hall of Stockholm. Right: Princess Ranghild, 14-year-old daughter of Crown Prince Olaf and Crown Princess Martha, of Norway, is shown (right, front row) with bottle with which she christened the tanker Karsten Wang at the Sun shipbuilding company's yard at Chester, Pa.

Aces Dined at National Capitol

Capt. Don S. Gentile, high-scoring ace in the European theater, and his buddy and wingman, Capt. John S. Godfrey, were dined at the capitol in Washington by the senators from their respective states. The team is on a well deserved furlough after having destroyed 59 enemy planes. Left to right are, Sen. Robert Taft (O.), Sen. Theodore Green (R. I.), Captain Gentile, and Sen. Harold Burton (O.).

Deeper Daylight Bombing Against Axis

With U. S. engineers adding greater flying range to our pursuit planes, there will be more effective bombing of enemy soil. For, while escort fighters parry the blows of Nazi rocket planes, our bombers can move to their targets unhampered. Our Eighth air force in England held the upper hand in daylight precision bombing until new Nazi tactics resulted in heavy losses, pushing back our daylight bombing front to a point only 400 miles from England, as shown by the arc. This was the range of our escort planes. The British, whose specialty is night bombing, have been able to make deeper penetrations into the blackened area because of the protection of moonless nights.

Yank Roundup

London metropolitan police (bobbies) cooperate with U. S. military police in extensive one-night check-up in west end of London, aimed at tracing absentees and deserters from U. S. forces. Above, bobbies and MP's hold a powwow in a blacked-out street.

Biddle Testifies

Attorney General Francis Biddle testifies before the house special committee investigation into the seizure by the government of the Montgomery Ward and company plant in Chicago. Left to right, Atty. Gen Biddle and Rep. Robert Ramo-speak of Georgia, committee chairman.

G. I. Rodeo Winner

Pvt. Daniel L. Cason of St. Joseph, Mo., wears the winner's wreath as he sits astride his galant little donkey. He has just won the donkey handicap at the rodeo, staged by the men of the Fifth army on the Anzio beachhead, in Italy.

Beautiful Friendship

Jasper—You're my friend, aren't you?
Joan—Yes, Jasper, I'm your friend to the end.
Jasper—Then lend me a quarter.
Joan—This is the end!

That's Practical

"You'll really marry me, darling!" exclaimed the enraptured young man. He proceeded: "And when we are married, the dark clouds will roll away, the sky will—"
"Don't make it a weather forecast—kiss me," said the girl.

Just Sound

Attorney—Well, your honor, what do you think of my argument?
Judge—It's sound . . . most certainly sound, sir.
Attorney—Yes, and what else, your honor?
Judge—Nothing else.

Outdoors Man

Employer—Are you a clock watcher?
Prospective Employee—No, I don't like indoor work. I'm a whistle listener.

Sponges Reach Immense Size—Gathering Difficult

In their natural state some sponges grow to gigantic sizes. One recently fished from a great sponge bed off the Bahamas measured ten feet in girth and weighed 100 pounds when dried. Capturing such a monster is hard work. The fisherman has to detach its root with his harpoon, a hooked bamboo rod from 20 to 30 feet long, and then calls in numerous helpers to assist in the catch. When the gelatinous mass reaches the surface, a diver strips it of its trimmings.

SNAPPY FACTS ABOUT RUBBER

Maintenance of our synthetic rubber plants after the war as "a rubber insurance policy" is advocated by leading rubber authorities. They hold that the U. S. cannot be adequately prepared at all times to defend its national interest unless it is free from the threat of a rubber shortage, a feeling subscribed to by most thinking Americans.

World capacities for producing natural and synthetic rubber after the war will aggregate nearly 2,800,000 tons yearly, predicts John L. Collyer, president of B. F. Goodrich. This is more than twice as much as the world has ever used in any one year.
