nearby island and it was our good fortune to spend a few hours visiting a few weeks ago and exchanging news from people mutually known by both of us. I was the first Willamina fellow he had met since coming overseas and he was the second I had met at that time. The Coddington boy was the first I met while on the Hebrides, the second being James and then, of course, my own Hap Jr. Have met fellows from Tillamook, Salem, Newberg, Beaverton, and Portland, to mention a few, but knew none of them previously.

Am still hoping to get back home for Xmas but as time goes by and that day draws nearer the chances become a more remote possibility.

I mailed you a box of shells some weeks ago which don't amount to much but anyway they are from down here. The Leopard shells are quite pretty and the others are just an assortment.

Hope this finds you happy, healthy and still in love.

Affectionately,
Hap

An angry bos'n says things that
Would lay a Navy censor flat.
He says things that he had
better

Never put inside a letter.
While awful words from bos'ns
flow,
Seamen turn as pale as snow.
For they know such profanity
As only men who go to sea.
