VIAL OF LIFE HELPS IN EMERGENCY

The 'Vial Of Life' program can help you avoid a medical disaster in your home. For instance, if you have a medical emergency in your home but are unable to communicate with emergency personnel when they arrive, the 'Vial Of Life' program will help by providing readily accessible information about your medical history to persons responding to the emergency.

To make the 'Vial Of Life' work, just follow these three easy steps:

- 1) Complete the 'Vial Of Life' information form.
- 2) Place the completed 'Vial Of Life' information form inside the vial and fasten the vial to the shelf at the top right corner *inside* your refrigerator.
- 3) Place the enclosed, self-adhesive decal on your front door above the door knob.

For further information contact your local senior center, fire or police department, or the council of senior citizens office in St. Helens.
