CONTRACT HEALTH: WHY SO MANY QUESTIONS?

Submitted by Shannon Welch

The Contract Health staff would like to thank you for your patience. We realize that the number of questions which we require you to answer each time you call in seems repetitive and unnecessary, especially when you may not be feeling well.

To make this experience less stressful, here is a list of the questions that we will ask each time you call:

1. Your name.
2. Patients name.
3. What will you be seen for?
4. Who are you going to see?
 - a. Name
 - b. Address
 - c. Phone
5. Do you have a private insurance or a medical card?
6. Do you have an updated application?

INDIAN HEALTH SERVICES

Contract Health Services now has their own direct local telephone line. Their new number is: (503) 444-1236 or toll-free 1-800-628-5720.

GET WELL WISHES FOR BILL TOWNER

Tribal Member Bill Towner recently underwent by-pass surgery. What started out to be a routine ballooning operation ended up being emergency by-pass surgery. During the operation, his heart stopped beating three separate times and had to be brought back by use of electric paddles.

Bill spent 23 days in the hospital, 6 of those in intensive care in Portland. He is home now recuperating from his recent operation.

Bill noted that he is unable to get up and around to visit like he used to. He also stated he is bored and would very much like to hear from Tribal Members. You can reach Bill at (206) 256-3647 or write him at 6213 NE 72nd Avenue, Vancouver, WA 98661.

Also, Bill would like to thank those Tribal Members and friends who recently sent him a "Get Well" card.

We'd like to wish Bill a SPEEDY RECOVERY!!!
