

CHAPTER NEWS

(Continued from page 21)
all right by the rest of us, if they live up to their promise, and bring back enough pheasants to put on a feed for the Chapter. More about this in the next issue. Be sure to read about the big game hunters.

EUGENE CHAPTER No. 6

The "Engineers vs. Maintenance Crews" was the order of the afternoon on September the 3rd, when a softball game was played. This was the result of the members having contracted "Ball Fever" at our picnic which was held in August. Much friendly rivalry existed, because—the losers were obligated to pay for ice cream and cake, after the game.

Umpires Dade and McIrwin tossed the coin for Captains Martin and Sherrett—and the game was on. The Maintenance crew went to bat, and brought in one run, then the Engineers brought in two runs. From then on it was a hard job to pick the winner as the score was tied most of the game. However, the timely heavy hitting of Sherrett's crew paid dividends, so at the end of the ninth inning the score stood: MAINTENANCE 11, ENGINEERS 9. The Engineers paid for the dessert.

Ted Layton has been in the hospital. He went over the grade riding a blade.

Bob Lockyear and John Quiner have left Umphlette's crew, and have returned to their studies at Eugene high.

"Buck" George Barnhart is now located at Sweet Home, working with Resident Engineer A. V. Benedict. He has moved his family to Newport where they have purchased a number of cottages which Mrs. Barnhart and son Paul will operate. We wish them success. Buck is a charter member of this chapter and we will miss his active assistance.

Harry Reeder has completed the building project at his home on W. 7th street, which has consumed all of his spare time during the past five months. He is now spreading the paint, but he says he is going to attend more meetings and see a few football games this winter.

Frank Hall and his family have moved into their "town" house on East 6th St., and they are enjoying the additional room and the improvements, which are the result of Frank's craftsmanship. Frank says, "no more running to catch a bus."

Martin, Umphlette, McKinney and Schofield have gone into training on an oak forest, and its hard to tell how they will come out, but the boys claim that they will have—"wood to burn this winter."
