## This Is YOUR War!

So urgent is the need for blood plasma that the boys of our own 41st Division have started a blood bank on the fighting front in the Pacific. You can do no less.

Call your nearest Red Cross representative today and make an appointment to donate a pint of blood at the nearest blood bank station.

**SAVE A SOLDIER'S LIFE**

## *They don't pin medals on WINCHES . . .*

BUT . . . if campaign bars were distributed to war equipment, HYSTER winches would rate them from all over the world. Mounted on "Caterpillar" tractors, HYSTERS have campaigned from the Alaska Highway, across Africa and Europe, to the South Pacific. HYSTER is proud of its people in service; it is also proud of its "fighting" equipment . . . serving abroad and on the home front.
